BenQ PVS7 7" 2000 nits On-Camera Monitor

The BenQ PVS7 is a 7-inch on-camera monitor designed to provide exceptional clarity and functionality for professional filmmakers and videographers. With its ultra-bright 2000 nits display, you can capture every detail even in bright sunlight. Hotkeys and a streamlined interface make it easy to switch between assistive functions, enhancing your shooting experience.

Features:

- **Anti-Reflective Touchscreen:** Features an anti-reflective coating to enhance viewing clarity, reducing reflectance to 5%, and a 6H screen hardness for enhanced resistance and durability.

- **Drop-Proof Protection:** Reinforced edges provide 4.9ft (1.5m) drop protection.
- **Protection Cage:** Includes a protection cage for external devices, adapting to various shooting scenarios for enhanced flexibility.
- **Two-Way Shading Hood:** The two-way hood (horizontal/vertical) features an anti-reflective panel to combat environmental reflections and ensure a clear screen view.
- **Accurate Colors:** Offers Rec.709 color gamut and out-of-the-box color accuracy, ensuring uniform and reliable color presentation across displays.
- **LUT Support:** Supports uploading multiple LUT files via microSD card, allowing you to preview videos in different styles.
- **Connectivity:** Compatible with HDMI and SDI in/out, featuring an IO groove design to protect source connectors.
- **Fan-less Design:** Eliminates noise during recording with optimal heat dissipation channels, perfect for capturing ASMR videos.
- **Eco-Friendly:** Made with 85% PCR (Post-Consumer Recycled) materials and packaged in fully recyclable cardboard.
- **Auto Power Off:** Conserves energy by automatically shutting down the screen after inactivity.

BenQ is a globally recognized leader in providing innovative technology and display solutions, committed to enhancing the quality and convenience of life through exceptional products and customer service.

more flexible and secure.

Anti-Reflective Touchscreen

Anti-reflective coating to enhance viewing clarity, with reflectance reduced to 5%. Additionally, it features a 6H screen hardness level for enhanced resistance and durability.

Drop-Proof Protection

Reinforced edges and 4.9ft (1.5m)* drop protection validated through drop testing. (*The results may vary depending on the specific tests conducted)

Protection Cage

Protection cage for external devices to adapt to various shooting scenarios for enhanced flexibility and agility. (You can still install the “camera” without the protection cage)

Two-Way Shading Hood

The two-way hood (horizontal/vertical) features an anti-reflective panel to combat environmental reflections and ensure a clear screen view. (The shading hood must be used with the protection cage)

Accurate Colours Mean Efficiency

See better with a superior display. BenQ provides Rec.709 colour gamut and out-of-the-box colour accuracy. Experience uniform and reliable colour presentation across various displays, making shooting and post-production efficient.

Preview in Style

The PVS7 supports uploading multiple LUT files through the microSD card. You can preview videos in different styles, ensuring a consistent creative perspective from shooting to post-production.

Compatible with Your Cameras

With support for HDMI and SDI in/out and an IO groove design to protect source connectors, you will have stable latency-free video transmission without weakened signals over long distances.

No Noise, No Overheating, Low Power Draw

Fan-less design with optimal heat dissipation channels eliminates bothersome noise during

recording, which is suitable for capturing ASMR videos with crystal-clear audio. Enjoy long-lasting, low-power usage* provided by our stable and durable monitors.

Colours You Can Trust

BenQ AQCOLOR technology delivers 'Accurate Reproduction.' This translates to the display of colour precisely as it is intended to appear. Led by a colour expert, the BenQ team participated in the ICC* and ISO** to establish colour-related standards and implementation guidelines.

BenQ's Green Commitment: A Vision of Sustainability

BenQ prioritizes eco-friendly practices in our product development, underlining our commitment to sustainability. BenQ Professional Monitors incorporate eco-friendly technology, recycled materials, and energy-efficient design.

85% PCR

The housing of monitors is made with 85% PCR (Post-Consumer Recycled) materials, contributing to eco-friendly production.

Recyclable Packing

We package our monitors in fully recyclable cardboard for minimal environmental impact.

Auto Power Off

Conserves energy by automatically shutting down the screen after 10, 20, or 30 minutes of inactivity, promoting sustainability.
