

Wireless Device MIKROTIK 1200 Mbit/s 1xLAN ports SXTSQ- 5AXD

Modelis: SXTSQ-5AXD

Gamintojas: MIKROTIK

EAN: 4752224009494

Prekės kodas: 455048

60.98€

A compact outdoor Wi-Fi 6 CPE with a powerful 16 dBi antenna, AP mode, and multiple mounting options — perfect for masts, poles, or rooftop deployments. Meet the SXTsq 5 ax — our first Wi-Fi 6 outdoor CPE, combining the best wireless technology with our trusted, compact SXTsq form factor. Despite the upgrade to Wi-Fi 6 and a modern ARM-based dual-core CPU, this unit keeps the same price point as our previous Wi-Fi 5 model — making it one of the best-value weatherproof CPEs on the market.

The enclosure can withstand all sorts of unpredictable weather hazards, and it features slots for directly attaching a hose clamp in three different mounting positions, including support for horizontal railings — ideal for masts and poles in rooftop or tower deployments.

Field-tested up to 3 km in high-interference, urban scenarios. Designed with the same trusted long-range architecture as previous SXT models — capable of 10+ km links in line-of-sight deployments.
