Featuring a 24-inch (23.8" viewable) Full HD (1920x1080) IPS panel, this display delivers exceptionally vibrant colors and wide 178/178-degree viewing angles, ensuring consistent picture quality from almost any perspective. Upgraded to a 100 Hz refresh rate, the monitor provides noticeably smoother motion compared to standard 60 Hz models, enhancing the experience when viewing dynamic content or playing fast-paced games.

Fluid Gaming and Adaptive Sync Technology

Experience tear-free and stutter-free visuals thanks to integrated AMD Adaptive-Sync technology. Coupled with an ultrafast 1ms Moving Picture Response Time (MPRT) and 4ms Grey-to-Grey response time, the 24E1N1100A is optimized for quick reactions, minimizing motion blur and ghosting even in highly demanding applications. The high 1300:1 static contrast ratio ensures deep blacks and bright whites, enriching the overall picture depth.

Eye Comfort and Ergonomic Design

Designed for prolonged use, the Philips 24E1N1100A prioritizes user well-being. Advanced eye care technologies reduce strain, allowing you to stay focused longer:

- **Flicker-Free Technology:** Regulates brightness to reduce flickering, alleviating eye fatigue.
- **LowBlue Mode:** Reduces harmful shortwave blue light emissions, preventing potential damage to vision.
- **Adjustable Tilt:** The stand allows ergonomic tilt adjustments for finding the most comfortable viewing position.
- **Anti-Glare Coating:** Features a 3H hard coating with 25% haze to minimize reflections in brightly lit environments.

Connectivity and Commitment to Sustainability

This monitor provides versatile connectivity options including HDMI and legacy VGA ports, ensuring compatibility with a wide range of modern and older devices. Additionally, Philips is committed to environmental responsibility. The 24E1N1100A monitor is built with environmentally conscious materials, featuring 100% recyclable packaging, PVC/BFR-free casing, and mercury-free components, aligning with modern sustainability standards.

MMD-MONITORS & DISPLAYS is the exclusive brand partner for Philips monitors, known for delivering innovative display solutions that focus on superior image quality, energy efficiency, and ergonomic design. Every Philips monitor is engineered to meet rigorous international standards for performance and sustainability.

Order your new monitor today from ++SHOP++ and enjoy reliable performance coupled with our commitment to customer satisfaction.

Discover the Philips 24E1N1100A monitor, a blend of performance and comfort designed to enhance your viewing experience. With a 24-inch Full HD 1080p display, this monitor delivers stunning visuals and vibrant colors, thanks to its support for 16.7 million colors and a high contrast ratio. The AMD Adaptive-Sync technology ensures smooth and uninterrupted visuals, making it ideal for gaming and multimedia applications.

Ergonomically designed, the monitor offers tilt adjustments and a flat front bezel, promoting a comfortable and focused workspace. It also features advanced eye care technologies, including Flicker-Free technology and LowBlue Mode, to protect your eyes during prolonged use. The inclusion of environmentally friendly features, such as 100% recyclable packaging and mercury-free components, reflects Philips' commitment to sustainability. With versatile connectivity options and advanced display technologies, the Philips 24E1N1100A monitor is a smart choice for any user looking for reliability and quality.
