seamless multi-tasking capabilities. Featuring an expansive Wide Quad HD (3440 x 1440) resolution and the innovative IPS Black panel technology, this display delivers superior color accuracy, exceptional contrast (2000:1), and true blacks from any viewing angle, supported by 98% DCI-P3 and 99% sRGB color gamut coverage.

Advanced Connectivity and Unmatched Power Delivery

This monitor functions as a comprehensive docking solution, simplifying your desktop setup. The robust USB-C hub provides industry-leading 140W Power Delivery 3.1, enabling you to charge high-demand professional laptops and connect all peripherals using a single cable. Enjoy stable networking with the built-in Ethernet port and utilize the integrated USB 3.2 Gen 1 hub for accessory connectivity.

Optimized Workflow and Visual Fluidity

- **KVM Switch & True Split:** Effortlessly manage and switch between two connected PCs using a single keyboard and mouse set. Lenovo's patented True Split technology allows for customized, efficient screen divisions, boosting multi-tasking capabilities.
- **Variable Refresh Rate (VRR):** The dynamic 24–120 Hz refresh rate adjusts automatically to match on-screen content, ensuring smooth motion for fast visuals and reducing power consumption when displaying static images.
- **Daisy Chain Capability:** Simplify multi-monitor setups by connecting multiple displays through a single video output from your PC.

Eye Comfort and Smart Management

The ThinkVision P34WD-40 prioritizes user well-being, achieving 5-star TUV Rheinland Eye Comfort Certification and Eyesafe Certified 2.0 status. These certifications guarantee low blue light emission (Hardware Solution) and flicker-free viewing, minimizing eye strain during long work sessions. The integrated smart sensor, including an ambient light sensor, assists the AI power-saving feature, seamlessly adjusting visuals while ensuring energy efficiency.

Lenovo is a globally recognized technology leader known for its reliable, high-quality computing and display solutions designed to boost professional productivity and innovation.

Order today from ++SHOP++ as we offer the best deals and fast delivery on professional display technology.

Keeps up with you

Match your screen to your workflow with 24-120 Hz variable refresh rate¹. It dynamically adjusts to match on-screen content, resulting in smoother motion for fast moving pictures or reduced rates for power saving when viewing still images. The AI power-saving feature ensures seamless visuals while saving energy

Collaborate and connect effortlessly

Enjoy clear, distortion-free visuals. ThinkVision P34WD-40 Monitor's IPS Black panel technology delivers premium, vibrant colors from any viewing angle. Effortlessly switch between two connected PCs using a single monitor, equipped with built-in KVM switch functionality. Lenovo-patented True Split technology enables multitasking with customizable screen splits for efficient workflows. Power up your work devices at full throttle with 140W PD 3.1 on P34WD-40 Monitor.

Simplifies display management

Manage and control your monitor assets with Lenovo Display Fleet Manager (LDFM). This innovative software solution empowers IT managers with robust tools for streamlined asset management, efficient firmware upgrades, and centralized settings control.

Crisp, colorful Lenovo ThinkVision monitors improve productivity, unleash creativity and limit eye strain - and they do it with all style, and some of the simplest and cleanest cable and connectivity options in the industry.
