Enhance your visual fluency and responsiveness with AMD Adaptive-Sync technology. This crucial feature synchronizes the monitor's refresh rate (operating up to 75 Hz) with your graphics card's frame output, effectively eliminating screen tearing and stuttering during dynamic video playback or casual gaming. Enjoy remarkably smooth and responsive motion every time, coupled with a fast 4 ms (grey-to-grey) response time.

Superior Viewing Comfort and IPS Clarity

Built with user well-being in mind, the 271V8AW minimizes eye strain during extended use. The advanced IPS panel technology ensures wide viewing angles (178 degrees), maintaining color accuracy and consistency from almost any perspective. Furthermore, Philips includes essential eye-care features:

- **Flicker-Free Technology:** Regulates brightness to reduce annoying screen flickering, significantly minimizing eye fatigue during long work sessions.
- **LowBlue Mode:** Reduces potentially harmful shortwave blue light emissions, providing a healthier and more comfortable environment for prolonged usage.

Key Technical Specifications

- Native Resolution: Full HD (1920 x 1080)
- Panel Type: IPS
- Aspect Ratio: 16:9
- Brightness: 250 cd/m²
- Connectivity: HDMI, D-SUB (VGA)
- Colour: Textured white
