157.99€

The ASUS TUF Gaming GT302 ARGB mid-tower system cabinet combines functionality with style, making it a suitable choice for gamers and PC enthusiasts alike. Designed to support a wide range of motherboards, from extended ATX to Mini-ITX, it offers flexibility for various build configurations. The chassis is equipped with ARGB fans that not only provide efficient cooling but also add a touch of customization with their dynamic lighting effects. A tempered-glass side panel beautifully displays your components, while the comprehensive dust filtration system ensures your setup remains clean. With features like a cable management system and support for large radiators and high-performance graphics cards, the GT302 ARGB is built to enhance your gaming experience.
