118.99€

The ASUS Prime AP202 microATX tower chassis offers a stylish solution for building a custom PC. With its tempered-glass windowed side panel, this tower showcases your components and provides a sleek, modern aesthetic. The chassis includes multiple dust filters, ensuring the interior remains clean and dust-free for optimal performance. The integrated ASUS Aura Sync RGB illumination enhances the look further, allowing for customizable lighting effects that can synchronize with other compatible products. Designed for versatility and functionality, the Prime AP202 supports internal bays for both 2.5-inch and 3.5-inch drives, accommodating various storage options. Cooling is prioritized with support for up to five fans or a 360 mm radiator, ensuring efficient airflow. Ample room for video cards up to 420 mm in length and CPU coolers up to 175 mm in height makes this chassis a practical choice for gamers and content creators. Front panel connectors include USB 3.2 and USB-C options for easy access to peripherals.
