### Dual-Channel Recording

The front and rear setup provides comprehensive coverage, providing compelling visual evidence to fully protect you from any potential threats or incidents.

### Experience Your Journey in HDR

The HDR, enhanced by MaiColor Vivid+ Solution, delivers smoother transitions and improves visibility of key elements like road signs and license plates, especially in challenging light scenes.

\*When HDR mode is activated, the frame rate will automatically adjust to 30FPS.

### MaiColor Vivid+ Solution

The self-developed algorithm utilizes Auto Exposure Technology and Selective Image Processing to optimize image quality by emphasizing key details, while also implementing special compensation for windshield color, resulting in a vibrant and enhanced visual experience.

## 1080P 60FPS

With its impressive 1080P resolution and smooth 60 frames per second, every moment on the road will be crystal clear and seamlessly recorded. That's how A200 provides reliable evidence and document your journeys.

## 24H Smart Parking Surveillance

When parking, the built-in G-Sensor detects collision and activates auto recording, and will notify you through an alert once the dash cam is turned back on.

## Low-Voltage & Battery Drain Protection

When powered by the Hardwire Kit UP02, it safeguards your vehicle's battery and electrical system from damage caused by low voltage. It activates an automatic power supply disconnect when the vehicle's voltage drops below 11.8V.
