370.99€

Roborock Q10 VF+ Cleaning Robot (black).

The Roborock Q10 VF+ cleaning robot will help you keep things tidy. It offers suction power of up to 10,000 Pa to eliminate dirt quickly, and its VibraRise 2.0 mopping system lets you deal with even stubborn stains in no time. The device can also effectively avoid obstacles and is compatible with the Roborock app, which enables a number of useful features, such as automatic power boosting on carpets. The kit also includes the RockDock Plus station, which not only charges the robot, but also empties its dust tank.

It will quickly deal with dirt

The Roborock Q10 VF+ is distinguished by its impressive suction power of up to 10,000 Pa. As a result, it quickly and effectively eliminates all kinds of dirt - from dust, to crumbs, to hair and dander. It even handles dirt hidden in the dense fibers of the carpet or crevices in the floor without a problem!

Tangle-proof brushes

The robot's main brush has not only rubber parts, but also bristles. In addition, it has been equipped with a special JawScrapers comb. This makes it resistant to hair tangles - don't worry about the problems of cleaning it! What's more, the device's side brush features an asymmetrical shape, extended bristles and a soft rubber baffle. This also prevents tangles and ensures that dirt goes exactly where it should.

VibraRise 2.0 mopping system.

Forget about having to mop your apartment floors by hand. Q10 VF+ will deal with even the toughest stains! Thanks to the VibraRise 2.0 system, the robot generates vibrations at a frequency of up to 3,000 times per minute to effectively eliminate stubborn dirt. It's not intimidated by spilled drinks or muddy dog footprints! The device can also lift the mopping module up to 8 mm high when it detects carpets, preventing them from getting wet. In addition, two vibration zones combined with scrubbing and dirt collection areas will keep your home's floors perfectly clean.

Emptying station included

You no longer have to get your hands dirty and empty the robot's dust container yourself. The included RockDock Plus station will do it for you! Its dust bag effectively filters pollen, dust mites and other allergens, making it perfect especially for homes of allergy sufferers and parents of young children. You only need to replace it once every 7 weeks or so!

Avoiding obstacles - nothing will get in its way

The robot uses structured lighting and an infrared camera to effectively detect and avoid obstacles, such as slippers or toys. As a result, it will easily find its way around almost any room - even on a cluttered floor. You don't have to worry about it colliding with or damaging something!

Precise navigation, fast mapping

Thanks to the LDS navigation system, the robot quickly maps rooms and plans optimal cleaning routes. It can store up to three maps, which means it's great for small apartments as well as larger,

storied homes. The device also detects potentially problematic areas, such as stairs or the space between chair legs, and then suggests setting up No-Go zones there that it won't access. This will prevent it from possibly falling or getting stuck!

Even more features in the app

Convenient management of the robot's work is enabled by the Roborock app, which allows you to use many useful functions. Using it, you can, for example, enable automatic power boost on carpets or the DEEP+ mopping mode, which guarantees even more thorough floor cleaning. It is also possible to direct the device to clean a specific area again. Also try the cleaning function along surface joints, which provides greater efficiency and prevents scratches.

Included

- Robot
- Mopping module
- Emptying station
- Power cord
- VibraRise mopping pad
- Quick start guide
- Moisture-resistant mat
- User manual
