Roborock H60 Ultra cordless upright vacuum cleaner (black)

Roborock H60 Ultra is a cordless upright vacuum cleaner that combines high suction power (210 AW) with a clever design to make everyday cleaning easier. It weighs just 1.75 kg, and with a flexible tube that bends 90°, it allows you to conveniently clean hard-to-reach areas. One charge provides up to 90 minutes of operation, and the battery can be recharged separately after use. Specialized brushes are included to help remove dust, dander and dust - both from floors and upholstery. An easy-to-read LED screen makes operation easy.

Effective dirt suction

The maximum suction power of 210 AW enables you to thoroughly pick up dust and dirt from a variety of surfaces - from carpets to hard floors. The high performance is maintained throughout the

entire work cycle, so the vacuum cleaner guarantees satisfactory results on the first pass.

Convenient cleaning under furniture

The vacuum cleaner's tube bends up to 90°, allowing you to reach under beds, sofas or cabinets with ease. This means you don't have to move furniture or bend down - the Roborock H60 Ultra smoothly slides into spaces just 5.6 cm high. In addition, the integrated green light with a 140° angle illuminates micro dust and dirt invisible to the naked eye, making it easier to clean in dark corners.

Anti-hair entanglement brush

The main brush combines rubber elements with soft fibers to effectively remove dirt from carpets and hard surfaces. The clever design of the teeth prevents hair from wrapping around the roller, reducing the need for manual cleaning. In addition, the brush operates at 7200 RPM, breaking up and removing dried dirt.

Five-stage filtration system

The Roborock H60 Ultra cordless upright vacuum cleaner is equipped with a five-layer filtration system, which consists of a cyclone filter, a metal mesh, a multi-cyclone module, a sponge and a HEPA filter. The solution used captures up to 99.95% of dust particles as small as 0.3 microns. As a result, the device releases only purified air back into the room. The system used helps separate dust from the air, which reduces the load on the filters and helps maintain constant suction power. You can easily clean the filters and the tank under running water.

Up to 90 minutes of operation

The pouch cell battery allows you to vacuum for up to 90 minutes. The component can be easily removed and charged separately, increasing flexibility of use and minimizing downtime during cleaning.

Practical accessories included

The vacuum cleaner comes with a motorized mini-brush for cleaning upholstery, beds and sofas, which operates at 6000 RPM and prevents hair entanglement. There will also be a 2-in-1 crevice brush at your disposal, designed for vacuuming narrow spaces and delicate surfaces. This nozzle can be connected to the telescopic tube, making it easier to clean high places such as curtain rails and upper shelves. The wall mount saves space and conveniently stores the unit.

Included:

- Vacuum cleaner body
- Multifunctional brush
- 2-in-1 crevice nozzle
- Motorized mini upholstery brush
- Wall mount
- Power cord
- Station
- User manual
