Featuring 8GB of ultra-fast GDDR6 memory and running on a blazing 2587 MHz core clock speed, this card is ready for demanding modern titles. Unlock incredible framerates and stunning visual fidelity using NVIDIA DLSS 4 technology, which leverages AI to enhance image quality and significantly boosts performance in supported games.

Key Performance Features:

- **Low Profile Form Factor:** Ideal for HTPCs and SFF enclosures, offering premium power in a compact design.
- **High-Speed Memory:** Equipped with 8 GB GDDR6 memory (128 bit bus) and a rapid 20000 MHz memory clock speed.
- **PCI Express 5.0 Interface:** Utilizes the latest generation interface for maximum bandwidth and future-proof connectivity.
- **NVIDIA DLSS 4 Support:** Experience significantly improved performance and visual clarity through advanced AI rendering, maximizing your gaming experience.
- **Active Cooling System:** Features 3 active fans to ensure efficient thermal management, maintaining a steady 2587 MHz processor frequency even under heavy load.

Connectivity and Resolution:

- Maximum digital resolution support up to 7680 x 4320 (8K).
- Versatile output options: 2 x DisplayPort and 2 x HDMI ports.
- Full support for modern APIs, including DirectX 12.0 and OpenGL 4.6.

GIGABYTE is a globally recognized leader in computer hardware, known for its dedication to producing high-performance components, including motherboards, laptops, and world-class graphics cards designed for durability and speed.

Order today from ++SHOP++ as we offer the best selection and expert support for your gaming hardware needs.

Unlock unparalleled gaming prowess with GIGABYTE's NVIDIA graphics cards. Engineered for peak performance and visual excellence, our GPUs redefine gaming standards. With advanced cooling solutions and cutting-edge technologies, GIGABYTE NVIDIA graphics cards deliver stunning visuals and seamless gameplay experiences, empowering gamers to dominate every virtual battlefield with
