

Access Point MIKROTIK 1200 Mbit/s LHG- 5AXD

Modelis: LHG-5AXD

Gamintojas: MIKROTIK

EAN: 4752224009654

Prekės kodas: 467487

86.99€

Long-range outdoor CPEs with modern Wi-Fi 6 performance, rugged design, and unbeatable pricing. Available in two models (24.5 or 27 dBi), they're ideal for point-to-point links over great distances. This is the 24.5 dBi version.

Need a fast, stable connection across large distances? Whether you're bridging two buildings, connecting a remote site, or sharing your internet with nearby infrastructure — the new LHG Wi-Fi 6 series is built for the challenge. And here's the best part: we've kept the same pricing as the previous generation. High performance, long range, and Wi-Fi 6 — all without breaking the budget. The 802.11ax standard brings crucial improvements for long-distance wireless links — including better spectral efficiency, higher modulation rates (1024-QAM), and lower latency. That means stronger performance even in noisy environments and faster, more stable connections over a greater distance. Combined with WPA3 encryption and RouterOS v7, the LHG ax series is ready for the challenges of modern outdoor networking. Order yours today — and be ready too!

LHG 5 ax is compact, long-range CPE with a 24.5 dBi antenna. Perfect for links up to 20 km in most
