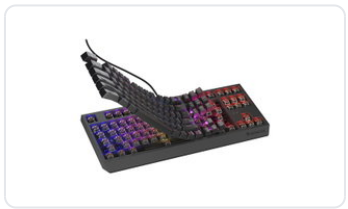
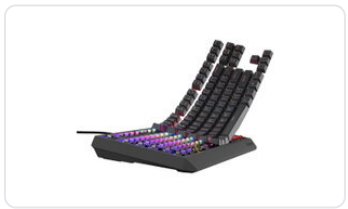
Pagrindinės savybės

- ✓ Gaming
- ✓ USB Mechanical Outemu Brown
- ✓ QWERTY US English
- ✓ Tenkeyless (80 - 87%)
- ✓ Windows keys Adjustable keyboard height
- ✓ Backlight RGB LED Multicolour
- ✓ Black
- ✓ 1 pc(s)





Aprašymas

Reach for more with the Genesis Thor 230 TKL - an all-new non-floating design, combining a Hot Swap system, Double Injection keys, silencing foam and pre-lubricated stabilizers, and that's not all. Upgrade your skills and reach for functional solutions. Behold the Genesis Thor 230 TKL.

DESIGNED WITH EVERY DETAIL OF YOU IN MIND

Details matter, but only when they offer a tangible benefit in the game. When designing the Genesis Thor 230 TKL, we made sure that the implemented solutions carry real value. This is how a keyboard was born, which, thanks to its "non-floating" design, will provide you with greater stability of the keys during fast game play and reduce rattling to a minimum. What does this mean for you? More precision and even less risk of making a mistake. No matter how successful you are. Genesis Thor 230 TKL will bring your gameplay to an even higher level.

SILENCE YOU WILL APPRECIATE

Loud keyboard operation is a problem that many gamers face. We know how important it can be not only for you, but also for your household members. That's why we equipped the Genesis Thor 230 TKL with additional foam placed between the PCB and the keyboard board. It absorbs vibrations caused by hard key strokes, lowering the keyboard volume by 20%, and it doesn't stop there. The spacebar key also gained additional muting. Our noise dampening system is a guarantee of peaceful gameplay even during fierce duels.

PLAY BY YOUR RULES

We've equipped the Genesis Thor 230 TKL with Outemu Red, linear switches that excel in high precision, activation regardless of where the key is pressed and high dynamics. However, we know that as a gamer you may have your own preferences. That's why we've implemented Hot Swap in the Genesis Thor 230 TKL - a technique that will allow you to replace any 3-pin mechanism with a micro-switch from companies such as Outemu, Akko, KTT. Simply pull out the installed mechanism and plug in the new one. Thanks to the Hot Swap system, you also don't have to buy a new keyboard when one switch fails. You replace it in just a few seconds. It's simple.

EVEN MORE LEGIBLY

Readable. That's exactly what the keycaps on the Genesis Thor 230 TKL are. When designing them, we focused not only on their workmanship, durability and pleasant-to-touch material, but also on the legibility of the laser-cut additional characters. From now on they are even clearer, allowing you to work more comfortably with full, customizable backlighting for each key individually.

SOLUTIONS THAT MATTER

Coincidence? Nothing is accidental in the Genesis Thor 230 TKL. In addition to the aforementioned amenities, this model will offer you a number of solutions that will make your gameplay even more enjoyable. A dedicated channel for laying the braided cable in any of the 3 directions, double folding legs for easy tilt adjustment in 2 levels, a function that allows you to activate the function keys without using "FN" - this is just a small part.

NOT JUST A COMPUTER

Looking for a mechanical keyboard compatible with consoles? Genesis Thor 230 TKL will connect not only to your computer, but also to consoles PS5, PS4, Xbox Series X | S, Xbox One X | S. Easier operation and better chances in competition with opponents? With the Genesis Thor 230 TKL, it's possible. *Make sure your game supports keyboard controls.

WHEN IT COMES TO STYLE

Sleek and elegant. However, that's not all. Experience the fully personalized Prismo Effect™ lighting with 16 million colors and 25 modes. Wave? Solid backlighting? Individual backlighting of each key? Or maybe an equalizer mode that will light up your workstation to the beat of your favorite song? With the Genesis Thor 230 TKL and dedicated software, it's easy. What's more, the easy-to-read application will allow you to create macro combinations and assign them to any key.

Techninė specifikacija

Specifications	
Sandėlio grupė	Root/Electronics/PC peripherals/Keyboards [+0][-692]
