display delivers a blistering 200 Hz refresh rate and a rapid 1 ms Grey-to-Grey (GTG) response time, ensuring crystal-clear motion and virtually zero lag. Coupled with AMD FreeSync Premium and ASUS Extreme Low Motion Blur (ELMB) technology, you can enjoy incredibly smooth, tear-free gameplay, even during the most intense action sequences.

Unmatched Gaming Performance

- **Ultra-Fast 200Hz Refresh Rate:** Decimates lag and motion blur, providing the visual advantage needed in fast-paced genres like FPS, racers, and real-time strategy games.
- **1ms (GTG) Fast IPS Technology:** Achieve unparalleled responsiveness and exceptional color accuracy thanks to the specialized Fast IPS panel, which boasts a minimum response time of 0.3ms GTG.
- **AMD FreeSync Premium & VESA AdaptiveSync:** Synchronizes the refresh rate of the monitor with your GPU output, eliminating screen tearing and stuttering for low-latency, butter-smooth visuals.
- **ASUS Extreme Low Motion Blur (ELMB):** Reduces smearing and motion blur, making moving objects appear sharper and improving overall fluidity.
- **Variable Overdrive:** Integrated ASUS technology dynamically adjusts overdrive settings based on frame rate fluctuations, ensuring optimal visual quality across varying game scenarios.

Advanced Visual and Ergonomic Enhancements

- **Shadow Boost:** Clarifies dark areas of the map without overexposing brighter scenes, making it easier to spot hidden enemies.
- **GamePlus Hotkey:** Exclusive in-game enhancements, co-developed with pro gamers, offering tools like crosshairs, timers, and FPS counters.
- **GameVisual Modes:** Seven pre-set display modes optimize visuals for different types of content, easily accessible via hotkey or the OSD menu.
- **Eye Care Technology:** Features Flicker-Free technology and ASUS Low Blue Light settings (four filter levels) to reduce eye strain during extended gaming marathons.
- **Extensive Connectivity:** Equipped with two HDMI 2.0 ports and a DisplayPort 1.4, ensuring broad compatibility with PCs and consoles.

- **Ergonomic Design:** The stand offers tilt adjustments for finding your ideal viewing position, and the display is VESA-compatible for optional wall mounting.

ASUS is a world-renowned technology leader dedicated to creating innovative products, components, and solutions that deliver incredible experiences. The TUF Gaming series exemplifies reliability and performance tailored for hardcore gamers.

The 27-inch TUF Gaming VG279Q5R Full HD gaming monitor featuring a Fast IPS panel for blistering-fast 200 Hz refresh rate gaming. ASUS Extreme Low Motion Blur and AMD FreeSync Premium™ technology enables buttery-smooth gaming. In addition, it has a 100% sRGB gamut to offer exceptional colors and contrast.

Gaming key spec

200HZ REFRESH RATE AND 0.3MS (GTG) RESPONSE TIME

With 200Hz refresh rate decimates lag and motion blur to give you the upper hand in first person shooters, racers, real-time strategy, and sports titles. This ultrafast refresh rate lets you play at the highest visual settings and lets you react instantly to what's onscreen — so you'll get that first strike in.

Gaming key spec

ADAPTIVE-SYNC

AMD FreeSync Premium technology and VESA AdaptiveSync technology* ensure supersmooth, tear-free visuals with low latency.

*In processing, please check the respective official webpage for the updatest compatible list.

Exclusive gaming feature

Extreme Low Motion Blur

ASUS Extreme Low Motion Blur (ELMB) technology provides a 1 ms GTG response time to eliminate smearing and motion blur. It makes moving objects appear even sharper, so gameplay is more fluid and responsive.

Exclusive gaming feature

Variable Overdrive

Integrated ASUS Variable Overdrive technology allows the display to dynamically alter its overdrive setting as frame rates fluctuate, ensuring optimal results for any game. You choose how strong you want the overall effect to be, then let the monitor take it from there.

In-game enhancements

Intuitive Controls

DisplayWidget Center software upgraded the user interface so that users can easily change monitor settings via a mouse — so there's no need to access the OSD menu.

Shadow Boost

ASUS Shadow Boost technology clarifies dark areas of the game without overexposing brighter areas, improving overall viewing while also making it easier to spot enemies hidden in dark areas of the map.

GamePlus

The ASUS-exclusive, integrated GamePlus hotkey offers in-game enhancements that help you get more out of your game. This function is co-developed with input from pro gamers, allowing them to practice and improve their gaming skills.

GameVisual

ASUS GameVisual Technology has seven pre-set display modes to optimize visuals for different types of content. This unique feature can be easily accessed through a hotkey or the on-screen display settings menu.

Flicker-Free technology

Flicker-Free technology reduces flicker to minimize eyestrain for improved comfort when you're embroiled in long gaming sessions.

LOW BLUE LIGHT

ASUS Low Blue Light technology reduces the amount of potentially harmful blue light emitted by the display. Four different filter settings are available to control the amount of blue light reduction.
