The Allin Box charger allows you to charge three batteries at the same time, which take just 2 hours to fully charge. This is ideal for those working with their camera in the field. The product also acts as a TF memory card reader, with a maximum read speed of 20 Mbps, making it easy to manage recorded footage.

## Protection and durability

The Allin Box is IP54 waterproof certified. As a result, it will perform well in harsh weather conditions and won't be harmed by accidental splashes. The case of the charger is made of fire-resistant PC, and the protective silicone casing further ensures the safety and durability of the product.

## Powerful rechargeable batteries

The included fast-charging 1750 mAh batteries offer a higher capacity than the standard GoPro-branded ones, which translates into longer camera runtime - up to 112 minutes of recording on a single charge, depending on the mode. They are fully compatible with GoPro Hero 9/10/11/12 models.

## Included
