The Hohem iSteady Q weighs just 195 grams and offers a maximum payload of up to 280 grams, making it compatible with many smartphone models, both iPhones and Android devices. With a built-in 460 mAh battery, you can enjoy up to 3 hours of use on a single charge. That's enough time to capture all your most important moments without having to worry about running out of power.

## **Versatile features for perfect shots**

The Hohem iSteady Q offers a wide range of features that make it easy to create professional videos and photos. The 360° pan range and auto rotation functions (300° vertical and 360° horizontal) allow you to capture full panoramic views. In addition, automatic calibration ensures stable and smooth shots, regardless of conditions. With the ability to easily change between landscape and portrait orientations, you can freely switch between these formats, which is ideal for different types of content.

## **Remote control and intuitive operation**

With Hohem iSteady Q, your recording experience becomes even more convenient thanks to a remote control function based on 2.4G radio frequency, with a range of up to 10 meters. This solution allows you to precisely control the device away from your phone, opening up new creative possibilities. An intuitive power button allows for quick on/off, as well as easy switching between lock mode and first-person tracking mode.

## **Full compatibility and ease of use**

The Hohem iSteady Q gimbal is compatible with a wide range of smartphones, making it ideal for any user. Whether you're a professional content creator or an amateur looking to take your photography skills to the next level, this stabilizer is sure to meet your needs.

## **Included**

- gimbal
- USB-C cable
- carrying bag
