TELESIN 40W fog generator

Portable fog generator is an ideal tool for creating a unique atmosphere during photo shoots, film productions or various special events. Thanks to its compact design and remote control function, it is extremely convenient to use, and its intuitive operation allows you to customize the effects. It is an excellent choice for both professionals and amateurs who appreciate reliability and precision in creating special effects.

Convenient operation and ergonomic design

The fog generator was designed with user comfort in mind. The ergonomic shape of the device fits perfectly in the hand, making operation comfortable even with prolonged use. The device's small size (61 x 59mm x 166mm) and lightweight design (276g) make it easy to carry and use in various locations. This is especially useful in dynamic situations, such as outdoor photo shoots and movie recordings.

Advanced control and adjustment

The built-in remote control allows you to easily and precisely adjust fog settings from up to 10 meters away. With its help, you can control up to 36 levels of fog, giving you the ability to precisely adjust the density and volume of smoke to suit your current needs. The remote control features a 1.06" TFT color display, making it easy to monitor parameters and settings. Thanks to 2.4G technology, control is convenient and reliable.

Intelligent temperature control and safety

The fog generator is equipped with an intelligent temperature control system that prevents the device from overheating and protects it from damage caused by dry combustion. An improved hardware system with multiple temperature sensors ensures safe and stable operation, making the device suitable for long-term use without risk of failure.

Fast charging and long operating time

The device is powered by two 18650-type batteries with a capacity of 2500 mAh each, providing up to 28 minutes of continuous operation at maximum power. Charging is done via a USB-C port, and a full charge takes only 2.5 hours at 5V/2A.

Multi-functional use

The fog generator will be perfect for a variety of situations, such as portrait photography, film production, commercial advertisements, as well as wedding ceremonies and other events where creating a moody atmosphere is required. Thanks to the 10 ml liquid container and the ability to use an atomizing liquid based on glycerin and propylene glycol, the visual effects are not only impressive, but also safe.

Included

- Fog generator
- Storage bag
- Spray liquid 60 ml

- Remote control
- Curved tubes x3
- T-shaped tube
- Straight tube
- Cotton nozzle covers x2
- Shockproof oil tank
- USB cable for charging

Generator

Manufacturer	Telesin
Model	S5-TFM-01
Dimensions	61 x 59 x 166 mm
Weight	276g
Power	40W (max)
Battery capacity	2500 mAh / 7.4 V, 18650 battery x2
Charging port	USB-C
Charging time	2.5 h (5V/2A)

Operating temperature 5°C ~ 45°C

Operating time	28 min (maximum power, total spray time)
Smoke levels	36 levels (6 levels of smoke density * 6 levels of air volume)

Remote control

Dimensions	99 x 26.5 x 10.5 mm
Weight	24 g

Rechargeable battery polymer

Battery capacity	200 mAh / 3.7V
Charging method	Charging when connected to the main unit
