

## Gimbal Hohem iSteady M7

Modelis: iSteady M7

Gamintojas: HOHEM

EAN: 6971071553198

Prekės kodas: 47257

# 320.99€

### Hohem iSteady M7 Gimbal

Hohem iSteady M7 is an advanced gimbal created for demanding users who want the highest quality stabilization and functionality. Thanks to its design, support for a wide range of smartphones and innovative technologies, it will work perfectly in the hands of both amateurs and professionals.

### Impressive iSteady 9.0 stabilization

One of the iSteady M7's greatest strengths is its 9.0 stabilization system, which ensures smooth and stable shots even during dynamic movements. It's ideal for recording in motion - from fast-paced action scenes to precise slow-motion shots. The stabilization works even at high speeds, making it easy for users to achieve professional results without extra effort.

### Innovative AI Tracker function

The gimbal is equipped with a dedicated AI Tracker module, which enables intelligent real-time tracking of objects and people, regardless of the application being used. This feature is particularly useful when recording vlogs, live broadcasts or dynamic scenes, where precise frame tracking plays a key role.

## **Full control with detachable touch screen**

The iSteady M7 is also distinguished by an innovative detachable touchscreen, which allows convenient operation of the gimbal's functions. This allows the user to control the recording parameters in real time and adjust the settings according to their needs, greatly enhancing the user experience.

## **Expanded versatility and performance**

The gimbal supports smartphones weighing up to 500g and supports foldable devices. The built-in 19.8 cm long boom allows you to capture more interesting shots and more easily create content from different perspectives. It is complemented by RGB and dual-color LED lights, which offer extensive lighting capabilities that are useful when working in difficult lighting conditions.

## **Long-lasting operation and chargeback**

The long-lasting battery provides up to 16 hours of operation, and the charge-back function allows you to charge connected devices such as a smartphone. This is ideal for those who want to remain fully mobile and independent during long recording sessions.

## **Compact kit with extensive features**

The Hohem iSteady M7 comes with a set of accessories in a sturdy case for easy storage and transportation. Among other things, the kit includes a tripod, charging cable and detachable touchscreen, allowing you to start working immediately after unpacking the product.

## **Included**

- iSteady M7 x1
