

Graphics card ASUS TUF Gaming GeForce RTX 5070 OC Edition 12GB GDDR7 (PCI Express 5.0)

Modelis: TUF-RTX5070-O12G-GAMING

Gamintojas: ASUS

EAN: 4711387849071

Prekės kodas: 475192

1,057.00€

ASUS TUF Gaming GeForce RTX 5070 OC Edition 12GB GDDR7 Graphics Card

The ASUS TUF Gaming GeForce RTX 5070 OC Edition is engineered for unwavering performance and extreme durability. Built upon the cutting-edge NVIDIA Blackwell architecture, this graphics card combines enhanced cooling and rock-solid power delivery, ready to withstand the harshest gaming environments. Lock, load, and dominate with hardware designed to last.

Unparalleled Durability and Advanced Cooling

The TUF Gaming series stands apart with its commitment to longevity. Every component is selected and rigorously tested to ensure stability and resilience, providing gamers with the peace of mind needed for extended, high-intensity sessions.

- **Military-Grade Components:** Features certified military-grade TUF chokes and MOSFETs, delivering stable power to the GPU and improving overall system stability under load.
- **Enhanced Capacitors:** TUF 5K black metallic capacitors offer superior resilience, boasting a 52% wider temperature tolerance and a 2.5X longer lifespan compared to standard capacitors.
- **Phase-Change Thermal Pad:** A premium phase-change GPU thermal pad melts under operation to effectively fill microscopic gaps, providing superior thermal conductivity and maximizing heat dissipation, ensuring optimal performance even during heavy loads.
- **Protective PCB Coating:** A specialized conformal coating envelops the circuit board, providing critical protection against short-circuits caused by moisture, dust, or debris.
- **Superior Cooling Longevity:** The active cooling system utilizes three fans equipped with Dual-ball Fan Bearings. These bearings offer an extensive lifespan of up to 80,000 hours, significantly exceeding the longevity of sleeve or fluid dynamic bearings, ensuring reliable and quiet operation for years.

Performance Specifications

The RTX 5070 is designed for high-resolution gaming and demanding creative workflows, utilizing a 192-bit memory bus connected to 12 GB of ultra-fast GDDR7 memory. Supporting a maximum resolution of 7680 x 4320 pixels and built on the future-proof PCI Express 5.0 interface, this OC Edition card delivers the speed and bandwidth required for the next generation of AAA titles, backed by OpenGL 4.6 support.

ASUS is a world leader in computer hardware, known for its commitment to innovation, quality, and rigorous testing standards across its Republic of Gamers (ROG) and TUF Gaming lineups, ensuring top-tier performance for every user.

Order today from ++SHOP++ as we offer the best deals and fast delivery on high-performance ASUS components.

Game TUF. Built to Last.

ASUS TUF Gaming GeForce RTX™ 5070

NVIDIA Blackwell architecture is elevated by enhanced cooling and power delivery, fortified with rugged reinforcements for exceptional durability. Lock, load and dominate with the TUF Gaming GeForce RTX™ 5070, designed to withstand the harshest conditions and deliver unparalleled performance.

TUF Chokes & MOSFETs

Certified military-grade TUF chokes and MOSFETs deliver rock-solid power to the GPU, which can help improve system stability.

TUF Capacitors

TUF 5K black metallic capacitors provide 52% wider temperature tolerance and a 2.5X longer lifespan than standard capacitors.

Phase-Change GPU Thermal Pad

By melting to effectively fill the gaps between the GPU and the thermal module, a premium phase-change GPU thermal pad provides superior thermal conductivity and enhanced heat dissipation, ensuring optimal performance and longevity for graphics cards under heavy loads.

Protective PCB Coating

A protective conformal coating envelops the circuit board to help protect against short-circuits caused by moisture, dust or debris.

Dual-ball Fan Bearings

Dual-ball bearings offer an extensive lifespan of up to 80,000 hours, double the longevity of sleeve bearings and surpassing fluid dynamic bearings. This helps ensure long-lasting, reliable and quiet cooling
