Aprašymas

The Neomounts AV45-500BL is a universal laptop shelf kit designed for installation under displays from 43" and larger, supporting VESA hole patterns from 200x200 up to 800x600 mm. The VESA-based design makes the shelf compatible with all VESA-oriented trolleys and wall mounts, ensuring broad applicability across different setups.

Both the shelf support and backplate brackets are height-adjustable, providing maximum flexibility. The AV45-500BL mounting holes accommodate width and height variations, while the VESA frame adjusts in four positions (200/400/600/800). The kit is suitable for use with both wall and floor mounts and has a maximum load capacity of 2,5 kg. Installation is quick and straightforward, with ruler-guided alignment ensuring a precise and seamless fit.

For detailed compatibility with specific models and mounting sizes, please refer to the online manual.
