platforms.

The headset features a discreet flip-to-mute boom microphone enhanced with AI Beamforming technology, allowing your voice to remain clear even in noisy environments. Hybrid ANC utilizes both internal and external microphones to reduce ambient noise for a more immersive listening experience, while Smart Sensor technology automatically pauses audio and mutes calls when the headset is removed. Comfortable leatherette memory foam ear cushions and an adjustable headband make it ideal for extended use.

Bluetooth 5.3 multi-point connectivity allows pairing with up to eight devices while maintaining two simultaneous active connections. With up to 78 hours of listening time, USB-C fast charging, Dell Pair support, and advanced customization through Dell Display and Peripheral Manager or the Dell Audio mobile app, the WL5024 provides an excellent balance of performance, comfort, and productivity for modern hybrid workplaces.
