Pagrindinės savybės

- ✓ Analogue Steering wheel + Pedals PC, Xbox, Xbox One Handbrake button, View button, Setting button, Directional buttons, Menu button, Share button
- ✓ Black
- ✓ AC
- ✓ Wired USB

Aprašymas

In a nutshell

Feel racing sensations through the wheel thanks to HYBRID DRIVE Force Feedback, enjoy a fully immersive experience and build up your driving skills. Optimize your racing lines, control your drifts and outmaneuver your rivals with the T128 and its T2PM pedal set — both of which feature reliable, ultra-precise magnetic technology.

Best for:

Experiencing FFB.

Level:

Casual.

Under the hood**IMMERSIVE FORCE FEEDBACK**

The HYBRID DRIVE technology in the Force Feedback system lets gamers experience all the fun, intuitive sensations of driving. The weight of each vehicle, bumps and impacts, loss of tire grip in corners, and road surface types can all be felt through the wheel, for immersive racing that will awaken your driver instinct.

MAGNETIC PADDLE SHIFTERS

Thanks to H.E.A.R.T magnetic technology, the paddle shifters allow for super-fast gear shifting (30-millisecond response time) with clear and precise activation, for sporty performance and while avoiding driving errors.

This patented technology, delivered via a contactless, frictionless magnetic system, provides outstanding durability over the long term.

ENGINE SPEED LEDS

The 4-color LED strip lets you monitor the engine speed without taking your eyes off the road. The LEDs flash when you need to shift to a higher gear, allowing you to optimize your gear shifting. The list of compatible games on PlayStation and PC is updated regularly on the Thrustmaster technical support website.

RESPONSIVE, VERSATILE DESIGN

The round, lightweight wheel rim gets the most out of all the Force Feedback system's power, for maximum velocity. Its 270° to 900° angle of rotation automatically adjusts based on the vehicle being used in the game, for driving adapted to all vehicle styles (GT, rally, F1, trucks). Thanks to the 13 action buttons on the racing wheel, you won't have to use a gamepad.

WHEEL-MOUNTED HANDBRAKE

The front of the wheel includes 2 handbrake buttons — easily accessible with the user's thumbs for daring skids, as well as freestyle maneuvers. The buttons' positioning is symmetrical, for ambidextrous handling and enhanced control in any direction.

MAGNETIC PEDAL SET

The T2PM magnetic pedal set included with the racing wheel offers amazing thousandths-of-a-second precision for crisp acceleration and well-proportioned braking.

The T2PM pedal set delivers a completely smooth experience without any risk of losing precision like more traditional pedal sets equipped with potentiometers, making it a powerful and reliable aid for improving your driving skills.

Root/Electronics/PC peripherals/Game controllers/Gaming steering wheels [+19][-64]

Input device

Device type	Steering wheel + Pedals
Gaming platforms supported	PC, Xbox, Xbox One
Gaming control function buttons	Handbrake button, View button, Setting button, Directional buttons, Menu button, Share button
Gaming control technology	Analogue
Buttons quantity	13
LED backlight	Yes
Steering wheel rotation angle	270 - 900°
Response time	30 ms
Ports & interfaces	
Connectivity technology	Wired
Device interface	USB
USB connector type	USB Type-C
Ergonomics	
Product colour	Black
Power	
Power source	AC
Input voltage	100 - 240 V
Output current	2.6 A
Weight & dimensions	
Width	260 mm
Depth	300 mm
Height	280 mm
Weight	4.1 kg
Packaging data	
Package width	325 mm
Package depth	345 mm
Package height	300 mm
Package weight	4.1 kg
Packaging content	
Power supply included	Yes
Cables included	AC, USB Type-C to USB Type-A
User guide	Yes
Warranty card	Yes

Packaging content	T128 racing wheel T2PM pedal set 48-watt power supply + power cable Clamping system and screw USB cable + safety release cable Quick install guide and warranty information
Logistics data	
Country of origin	China
Harmonized System (HS) code	8471607000
Matmenys ir svoris	
Matmenys (l × p × A)	37,00cm × 32,00cm × 32,00cm
