

Graphics Card Lenovo NVIDIA RTX A1000 8GB GDDR6, Low Profile, PCIe 4.0, 4x mini-DP

Modelis: 4X61Q73041

Gamintojas: LENOVO

EAN: 195892109693

Prekės kodas: 489452

580.99€

Lenovo NVIDIA RTX A1000 8GB GDDR6 Graphics Card

Introducing the Lenovo NVIDIA RTX A1000 Graphics Card, designed specifically for creative professionals and demanding workstation environments. Built on the advanced NVIDIA Ampere architecture, this powerful yet efficient single-slot GPU delivers hardware-accelerated ray tracing, advanced AI capabilities, and superior simulation performance for complex workloads.

Superior Performance and Professional Design

The RTX A1000 features 8 GB of GDDR6 memory, crucial for handling sizable data sets in graphics-intensive applications. Importantly, the memory includes ECC (Error-Correcting Code) for enhanced data protection and system reliability, making it ideal for critical professional use. Its low-profile, single-slot design and efficient 50W maximum graphics power consumption make it highly versatile for various workstation configurations utilizing a standard PCIe edge connector.

Key Technical Specifications:

- Graphics Processor: NVIDIA RTX A1000 based on the state-of-the-art Ampere architecture.
- Dedicated Memory: 8 GB GDDR6 with ECC (Error-Correcting Code) support for maximum data integrity.
- Interface: High-speed PCI Express x8 4.0 connectivity for rapid data throughput.
- Display Outputs: Four (4) mini-DisplayPort (mini-DP*4) connectors supporting massive resolutions up to 7680 x 4320 pixels.
- Cooling: Active cooling solution ensuring optimal thermal performance during intense operation.
- API Support: Compatible with industry standards including DirectX 12.0 and OpenGL 4.6 for broad application support.

Lenovo is a global leader in providing innovative PC, workstation, and server technology, renowned for quality, reliability, and robust enterprise solutions.

Order today from ++SHOP++ as we offer the best prices and guaranteed genuine Lenovo hardware.

NVIDIA RTX A1000 8GB mini-DP*4 GDDR6 Graphics Card is a single-slot, 6.6" PCI Express Gen4 graphics solution based on the state-of-the-art NVIDIA Ampere architecture. It is an actively cooled product capable of 50 W maximum graphics power using a PCIe edge connector. This NVIDIA RTX A1000 GPU delivers hardware-accelerated ray tracing, revolutionary AI features, advanced shading and powerful simulation capabilities to creative professionals. With the industry's most expansive graphics memory footprint consisted of 8 GB of GDDR6 memory with ECC for data protection, NVIDIA RTX A1000 enables the most graphics-intensive applications run with the highest level of user experience, with sizable data sets.
