Intelligent Management Center (IMC) Wireless Service Manager (WSM) is a Wireless LAN (WLAN) integrated wired and wireless management system that supports management of all H3C wireless devices. It offers wireless device discovery, service configuration, traffic monitoring, WLAN topology, service reports and rogue detection. By using policy templates to configure devices in batches, it improves efficiency and reduces workload and network maintenance expenses.

Product Description: Intelligent Management Center Wireless Service Manager - licence | Product

Type: Licence | Category: Networking applications - monitoring & performance management |

Platform: Windows | Distribution Media: Electronic
