Aprašymas

4K UHD Resolution

Immerse yourself in a whole new environment with unprecedented detail and color accuracy. 4K UHD projections show details in 8.3million pixels to give a four times higher resolution than Full HD.

4,000 Lumens Brightness

See crystal-clear, vibrant images from a distance in daylight or medium to large rooms with up to 4,000 lumens of brightness.

HDR10 Compatible

More realistic, natural images are provided through an expanded contrast ratio and color palette using HDR10 compatibly. HDR (high dynamic range) is a display technology that creates deeper levels of black and white contrast using scalar chip decoding and mapping technology to give a greater level of immersion through realistic image recreation.

1080p Resolution at 240Hz Refresh Rate[1]

Catch every detail of fast-paced sports, movies, and games with FHD 1080p clarity and an impressive 240Hz framerate for hyper-smooth images.

Smart Projector[2][3]

Enjoy your favorite shows and movies on a 100" screen with our Android TV[3]-certified mini dongle, and with voice search commands, it's easier than ever to find the content you love.

Rec. 2020 Compatible

For superior color reproduction this projector is Rec. 2020 compatible. Defined in the latest HDR specifications, Rec. 2020 reproduces a number of new tones of green and offers improvements to the number of blue and red colors.

ISFccc Professional Calibration[4]

Get the most out of your projector's images with professional calibration from an ISF-qualified technician[4].

Football Mode

Gather your friends and share in the glory of your favorite sport on an immense screen. Football mode enhances the colors to clearly show all the action.

Keystone Correction for Distortion

Finding the right angle for your presentation is easier with keystone correction, which corrects horizontal and vertical distortion.
