

Graphics Card PALIT NVIDIA GeForce RTX 3050 StormX 6GB GDDR6 96- bit PCI Express 4.0

Modelis: NE63050018JE-1072F

Gamintojas: PALIT

EAN: 4710562244625

Prekės kodas: 503888

356.99€

Palit GeForce RTX 3050 StormX - Compact Power for Mini-ITX

The Palit GeForce RTX 3050 StormX is designed specifically for users who prefer small form factor builds without compromising on performance. Boasting a compact single-fan design and a board length of just 162mm, this graphics card fits perfectly into Mini-ITX systems, making it an ideal

choice for space-conscious gamers and creators who need portability and power in one package.

Silent and Efficient Cooling

Equipped with 0-dB Tech, the graphics card ensures a silent operation during light workloads. The fan stays inactive when the GPU temperature is below 60°C or power consumption is low, only kicking in during intense gaming or rendering sessions. Additionally, the honeycomb bracket design increases airflow by up to 15%, allowing heat to be exhausted more efficiently from the GPU.

Advanced AI and Gaming Technologies

- **NVIDIA DLSS:** Groundbreaking AI rendering that boosts frame rates while maintaining beautiful, sharp image quality using dedicated Tensor Cores.
- **Ray Tracing:** Experience realistic lighting, shadows, and reflections that bring your favorite games to life.
- **NVIDIA Reflex:** Delivers the lowest latency and best responsiveness for a competitive edge in fast-paced games.
- **NVIDIA Broadcast:** Enhance your live streams with AI-powered noise removal, virtual backgrounds, and webcam auto-frame.

Optimized Control with ThunderMaster

The Palit ThunderMaster utility provides a user-friendly interface for total control over your hardware. Monitor your GPU status, adjust overclocking settings, or customize fan speeds to find the perfect balance between performance and acoustics.

PALIT is a world-leading manufacturer of high-performance graphics cards, dedicated to providing gamers and professionals with innovative cooling solutions and reliable hardware. Order today from ++SHOP++ as we offer the best deals on high-quality PC components.

Single-Fan Option for Mini-ITX Power Station

Designed specifically for small PC users, the Palit GeForce RTX™ 3050 StormX boasts a compact yet powerful single-fan design. With a board size of 170mm in length, the StormX graphics cards are Mini-ITX supported, making them perfect for space-conscious gamers and creators.

Silent Performance When It Matters

The fans remain off during lighter tasks, delivering a silent operation. They activate only when needed.

Activation Conditions: GPU reaches ~60°C, or TGP exceeds ~150W

Deactivation Conditions: GPU drops below ~50°C, memory below ~80°C, and TGP below ~60W

Mini-ITX Form Factor Supported

With only 17cm in length, the model supports mini-ITX form factor system, perfect for small build lovers. Gamers can experience the mighty power of a full-sized graphics card while saving some space and enjoy the portability.

All New Thunder Master

Palit's new ThunderMaster has thorough upgrade from the previous version. It has more user-friendly interface as well as more personalized settings. With ThunderMaster, you can control your video card from overclock setting, fan speed to LED effect. You can also monitor GPU status with ThunderMaster utility.

Honeycomb Bracket

The design of honeycomb bracket increases airflow by up to 15%, allowing the heat generated from GPU to be exhausted via the honeycomb design bracket. This enables more efficient cooling effects.

Stream Like A Boss

Steal the show with incredible graphics and smooth, stutter-free live streaming. Next-generation hardware encoding and decoding combine to show off all your best moments in exquisite detail. And the all-new NVIDIA Broadcast app takes your livestreams to the next level with powerful AI capabilities to improve audio and video quality with effects like virtual background, webcam auto frame, and microphone noise removal. GeForce RTX™ 30 Series GPUs deliver the performance and image quality necessary to give your audience your best—every time.

Up Your Creative Game

Take your creative projects to a new level with GeForce RTX™ 30 Series GPUs. Delivering AI-acceleration in top creative apps. Backed by the NVIDIA Studio platform of dedicated drivers and exclusive tools. And built to perform in record time. Whether you're rendering complex 3D scenes, editing 8K video, or livestreaming with the best encoding and image quality, GeForce RTX™ GPUs give you the performance to create your best.

Victory Measured In Milliseconds

NVIDIA Reflex delivers the ultimate competitive advantage. The lowest latency. The best responsiveness. Powered by GeForce RTX™ 30 Series GPUs and NVIDIA® G-SYNC® gaming monitors. Acquire targets faster, react quicker, and increase aim precision through a revolutionary suite of technologies to measure and optimise system latency for competitive games.

DLSS AI ACCELERATION

MAX FPS. MAX QUALITY. POWERED BY AI.

NVIDIA DLSS (Deep Learning Super Sampling) is groundbreaking AI rendering technology that increases graphics performance using dedicated Tensor Core AI processors on GeForce RTX™ GPUs. DLSS taps into the power of a deep learning neural network to boost frame rates and generate beautiful, sharp images for your games.

NVIDIA G-SYNC

Get smooth, tear-free gameplay at high refresh rates, plus HDR and more. This is the ultimate gaming display and the go-to equipment for enthusiast gamers.
