Aprašymas

Instant Studio

Great voice content starts with GV60. This sleek matte-finished aluminum microphone instantly turns any setup into a studio for you while delivering uncompromised recording quality with a high resolution sample rate of 24bit/96kHz.

Versatile With Great Sound

Empowered by multiple condensers, the GV60 provides the versatility to adapt to any situation with 4 different pickup patterns to capture singing, podcasts, interviews, meetings, and game streaming with ease.

Stereo

Stereo mode uses both the left and right channels, and is ideal for capturing a realistic, general sound image for vocals such as singing or talking.
*Vocals / Ensemble choir/ Instruments

Omnidirectional

Omnidirectional mode picks up sound from all directions. This mode is ideal for situations in which you want to capture the full unadulterated sound of a space, without aiming at any particular sound source.
*Conference calls/ Field Recordings/Event/Orchestras

Cardioid

Cardioid mode records sound sources that are directly in front of the microphone and dismisses unwanted ambient sounds. This mode is ideal for recording podcasts, talks, or game streaming.
*Podcasts/ Voiceovers/ Vocals Instruments

Bidirectional

Bidirectional mode records from both the front and the rear of the microphone. It’s ideal for capturing the nuance of a musical instrument or recording an interview between two people.
*Interviews/ Instruments/ Vocal duets
