The Radeon RX 9060 XT GPU, paired with a massive 16GB of high-speed GDDR6 memory, ensures that you are ready for the latest AAA titles at 1440p and 4K resolutions. As an Overclocked (OC) edition, this card is factory-tuned to push clock speeds beyond standard specifications, providing instant, noticeable performance gains right out of the box.

## Swift Cooling Technology

To manage the immense power of the RX 9060 XT, XFX employs its renowned Swift cooling design. Featuring a powerful triple-fan configuration, this system ensures efficient heat dissipation and maintains optimal operating temperatures. This robust cooling solution guarantees stable performance, extends the lifespan of the components, and keeps noise levels low, allowing you to focus completely on your game.

## Key Performance Features:

- **GPU:** AMD Radeon RX 9060 XT – built for high-end 1440p and 4K gaming experiences.
- **Memory:** 16384 MB (16 GB) GDDR6 VRAM, providing extensive bandwidth for high-resolution textures and complex rendering.
- **Overclocked (OC) Edition:** Factory boosted clock speeds delivering superior performance compared to reference models.
- **Advanced Cooling:** XFX Swift triple-fan thermal design ensures maximum heat transfer and quiet operation.
- **Gaming Focused:** Optimized drivers and architecture supporting the latest graphical technologies for competitive gameplay.

**XFx** is a dedicated manufacturer known for creating high-quality, performance-driven PC hardware, specializing in robust AMD Radeon graphics cards. XFX products are recognized globally for their innovative cooling solutions and durable designs.
