Pagrindinės savybės

- ✓ Infinity mirror ARGB illumination
- ✓ Non-slip magnetic base
- ✓ Universal compatibility
- ✓ ARGB Synchronisation

Aprašymas

Innovative graphics card holder that combines a non-slip magnetic base and stunning aesthetics with Infinity Mirror ARGB lighting. With its universal design, it fits any graphics card, offering stability and a touch of customization to your PC. Available in black and silver grey, it blends seamlessly into your setup.

ARGB INFINITY MIRROR LIGHTING

The GPU mount's Infinity Mirror ARGB lighting system is a true revolution in PC hardware design. Not only does this mount provide a firm foundation for your graphics card, it also aesthetically elevates your build with its dazzling depth effect. The Infinity Mirror's unique visual effect adds a stunning dimension of light, ideal for PC enthusiasts looking to add a distinctive element to their builds.

AVAILABLE IN TWO VERSIONS BLACK OR SILVER GREY

Choose the one that best suits your configuration

UNIVERSAL COMPATIBILITY

The MCA-GCB design offers universal compatibility, ideal for high-end graphics cards of any size. Its ability to adjust to different sizes and weights makes it the perfect addition to any setup.

SYNCHRONIZATION AND ARGB LIGHTING

The MCA-GCB is a customizable lighting centerpiece for your PC. Compatible with most ARGB motherboards on the market, connect the stand via the 5V 3-pin ARGB connector, allowing for perfect synchronization with the rest of your ARGB components. Coordinate the colors and lighting effects of your components and create a striking aesthetic for your system.

NON-SLIP MAGNETIC BASE

Say goodbye to stability concerns with the MCA-GCB bracket's non-slip rubberized magnetic base, ensuring your graphics card stays firm and protected at all times, eliminating any risk of shifting or falling. The non-slip magnetic base sticks firmly to your PC case, providing quick installation and a firm, stable hold.
