At the heart of the device is the MTK MT8786 — a powerful octa-core CPU designed to elevate your productivity and entertainment. With enhanced graphics, high-speed processing, and excellent energy efficiency, it guarantees smooth performance across all your favorite apps.

The MT8786 chip combines an octa-core Arm-Cortex A75 and A55 CPU, operating up to 2.0GHz, with an Arm G52 MC2 graphics processor, operating at 950MHz.

Crystal clear 1920x1200 Full HD IPS Display

The 1920 x 1200 native resolution of the HANNSpree Mercury enables you to enjoy truly stunning picture quality. See demanding video and game content in Full HD+ glory for the ultimate viewing experience.

The 1920 x 1200 resolution of the new Mercury delivers sharp, vivid colors meaning that you will see every detail of your pictures and videos with a clarity like never before.

Protective Smart Cover

- Specifically designed for HANNSpree Mercury 14.1“
- The Cover folds as a versatile stand to enjoy, emailing, gaming or videos
- The soft inner lining protects the screen from dust & scratches
- Allows easy access to all buttons, controls, cameras & ports
- Built-in Stand function
- Easy to install and remove

Dual-Band Wi-Fi / 2.4GHz & 5GHz Wireless capabilities

The Mercury Tablet PC features a Dual Band Wi-Fi 802.11 a/b/g/n+ac. You can choose to connect to either a 2.4GHz or 5GHz wireless router. 2.4GHz routers are the most common, however, routers on the 5GHz band benefit from almost no interference. Although there is no difference between the speed of the bands, by accessing the 5GHz band you can enjoy a faster connection purely based on the lack of interference from other frequencies and other devices.

Amazing audio through stereo speakers

Whether you're watching movies or listening to music, the HANNSpree Mercury stereo speakers provide unmatched sound quality and performance.
