Pagrindinės savybės

- ✓ 512 GB Juoda
- ✓ Skaitymo laikas: 600 MB/s Rašymo laikas: 600 MB/s
- ✓ C tipo USB
- ✓ Duomenų perdavimo sparta: 10 Gbit/s
- ✓ Korpuso medžiaga: Plastikis

Aprašymas

Compact & Dual-Connector Design

Weighing just 7.8g (0.28oz)—lighter than a pair of AirPods—the SC730 is as compact as a USB flash drive! With built-in dual USB-C and USB-A connectors, there’s no need for adapters or extra cables. Transfer large files seamlessly across devices—one drive does it all!

Plug in and Keep Shooting

Running out of space on your phone? The SC730 is your perfect on-the-go storage solution. With USB 3.2 Gen2 high-speed interface, it delivers 600MB/s read/write speeds and a 10Gbps bandwidth, allowing you to edit and access large files directly on the drive. It also supports file transfers with the iPhone 16 series, ensuring a smooth, uninterrupted experience.

*For optimal performance, devices must support USB 3.2 Gen 2 and UASP drivers. Actual speeds may vary depending on system hardware and software configurations.

Protect Nature Live Sustainably

Made with 50% post-consumer recycled (PCR) materials, the SC730 reduces carbon emissions by 39%. The surface features an eco-conscious nano-imprinted (NIL) design, creating a dynamic, multi-layered light effect from different angles. Plus, it's fingerprint-resistant, adding a sleek touch to your style.

*PCR refers to the process of recycling, sorting, and processing waste materials discarded by consumers, and reusing them as new raw materials.

Your Game Library

The SC730 can be connected to the latest generation of game consoles. Games that do not fit on the consoles' internal storage can be stored in the SC730, making it easy to expand your game library and add to your entertainment lifestyle.

* Actual loading time may vary depending on individual games and disk format may need to be modified before connecting to console.

**Formatting may be required before connecting to your game console. For more information, click here.

Hassle-Free Compatibility

Whether Android, macOS, Windows, or other operating systems, you will not need to worry about compatibility. Just connect via its Type-C port and go.

*Mobile device software and hardware must be compatible with and support external SSDs in order to utilize OTG data backup and transfer functionality.

**When connecting a mobile device, ensure the mobile device supplies sufficient power to avoid transfer failure or data loss due to power issues.

Techninė specifikacija

Puslaidininkinis diskas	
SSD disko talpa	512 GB
Skaitymo laikas	600 MB/s
Rašymo laikas	600 MB/s
Ryšys	

USB jungtis	C tipo USB
USB versija	3.2 Gen 2 (3.1 Gen 2)
„Wi-Fi“	Ne
„Thunderbolt“ technologija	Ne
Duomenų perdavimo sparta	10 Gbit/s
Savybės	
Produkto spalva	Juoda
Korpuso medžiaga	Plastikas
Palaikomos „Windows“ operacinės sistemos	Windows 10, Windows 11
Palaikomos MAC operacinės sistemos	Mac OS X 13.0 Ventura, Mac OS X 14.0 Sonoma, Mac OS X 15.0 Sequoia
Palaikomos mobiliosios operacinės sistemos	Android 13.0, Android 14.0, iOS
Energijos valdymas	
Darbinė įtampa	5 V
Aplinkos sąlygos	
Darbo temperatūros diapazonas (TT)	5 - 35 °C
Svoris ir matmenys	
Plotis	36,8 mm
Ilgis	9,7 mm
Aukštis	23,8 mm
Svoris	7,8 g
