

Graphics card ASUS GeForce GT 730 2GB GDDR5 Silent Passive Cooling (HTPC Ready)

Modelis: 90YV06N2-M0NA00

Gamintojas: ASUS

EAN: 4716659990390

Prekės kodas: 51511

95.99€

ASUS GeForce GT 730 2GB GDDR5 Graphics Card - Silent Performance for HTPC

The ASUS GeForce GT 730 is an outstanding entry-level graphics solution designed for users prioritizing silence and reliability, making it the perfect choice for Home Theater PC (HTPC) builds and multimedia centers. Engineered with a highly-efficient 0dB thermal design, this card dissipates heat completely passively, ensuring absolutely no operational noise.

Key Features and Technology

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. - **0dB Silent Cooling:** Exclusive ASUS passive heatsinks feature a large surface area to cool the GPU effectively without requiring fans. This results in complete silence, ideal for noise-sensitive environments like living rooms or studios.
- **2GB GDDR5 Memory:** Equipped with fast 2048 MB GDDR5 memory (5010 MHz clock), this card provides smooth performance for everyday computing, multimedia playback, and light gaming.
- **AUTO-EXTREME Technology:** This is an industry-first, 100% automated production process that uses premium components to enhance quality, reliability, and longevity while reducing power consumption and chemical use.
- **GPU Tweak II Utility:** The redesigned GPU Tweak II interface provides intuitive performance tuning. It retains advanced options for experienced users and includes the helpful one-click Gaming Booster function to maximize system performance by automatically clearing redundant processes and optimizing resources.
- **Technical Specifications:** Features NVIDIA GeForce GT 730 processor clocked at 902 MHz, connected via a 64-bit memory bus, utilizing PCI Express 2.0 interface, and supporting a maximum digital resolution of 2560 x 1600 pixels.

ASUS is a globally renowned technology leader, known for creating motherboards, components, and computing devices that push the boundaries of innovation and quality. Their commitment to superior engineering is evident in every product.

Order this silent graphics card today from ++SHOP++ and experience top-tier quality backed by the best customer service.

Graphics galore for everyone!

GT 730 is the fantastic graphics card from ASUS. Engineered with a highly-efficient 0dB thermal design, it dissipates heat in complete silence — making GT 730 the perfect choice for your slimline home-theater PC (HTPC) build. Exclusive AUTO-EXTREME Technology for premium quality and best reliability. It also has GPU Tweak II with Xsplit Gamecaster, provides intuitive performance tweaking and lets you stream your gameplay instantly.

0dB Silent Cooling

Perfect for building a hushed HTPC

Exclusive ASUS-designed heatsinks with large surface areas effectively cool graphics cards passively so absolutely no sound is produced while running - perfect for high definition and silent home theater PCs and multimedia centers.

AUTO-EXTREME Technology

Premium quality and best reliability

All ASUS graphics cards are now produced using AUTO-EXTREME Technology, an industry-first, 100% automated production process that incorporates premium materials to set a new standard of quality. AUTO-EXTREME Technology ensures consistent graphics card quality as well as improved performance and longevity. This new manufacturing process is also environmentally friendly, eliminating harsh chemicals and reducing power consumption by 50%.

GPU Tweak II

Tweak Till Your Heart's Content

Redesigned with an intuitive, all-new UI, GPU Tweak II makes overclocking easier and more visual than ever, while still retaining advanced options for seasoned overclockers. With one click, the new Gaming Booster function maximizes system performance by removing redundant processes and allocating all available resources automatically.

Gaming Booster

One-click Performance Up

- Visual effects: Boost your performance by turning off windows visual effects.
- System Services: Automatically or manually turn off windows services or process.
- Memory Defragmentation: Re-arrange & free your system memory without closing any processes.
