Pagrindinės savybės

- ✓ 27" FHD (1920 x 1080) IPS Display
- ✓ 100Hz Refresh Rate & 5ms Response Time
- ✓ Reader Mode & Flicker Safe
- ✓ Dynamic Action Sync, Black Stabilizer, Crosshair
- ✓ OnScreen Control & Built-In Speaker
- ✓ Tilt & Height Adjustable Stand

Aprašymas

At 1920x1080 resolution, LG's Full HD IPS monitors feature vibrant color and visual clarity even at wide viewing angles. Work through your projects with ease and efficiency.

With a 100Hz refresh rate and 5ms(GTG) response time, on screen visuals are rendered clearly for ultra-smooth motion and fluidity.

With On-Screen Control, customize the workspace by splitting the display into multiple windows or adjusting basic monitor settings with just a few mouse clicks.

Get a pro-level experience with the closest thing to real-time gaming. Dynamic Action Sync elevates your gameplay so you can respond every moment of the action with reduced input lag and unbelievable performance.

Light up your gameplay with enhanced vision. Black Stabilizer brightens dark scenes to give you an advantage over the competition—even when they're hiding in the shadows.

Crosshair offers an accuracy advantage with center-display crosshairs that provide enhanced vision and precision for increased accuracy in first-person shooter games.

This monitor comes with Reader Mode which can reduce blue light emission to help provide a reduction in eye fatigue.

The ergonomic stand makes it easy to adjust the height and tilt of the screen to the optimal position for you.

This monitor has a virtually borderless screen on three sides. The narrow-bezel design not only keeps your focused on the screen, but is made to look great on the desktop.

With two built-in 2W speakers, your movies, shows, music and video conference calls will all sound as good as they look.

Techninė specifikacija

Specifications	
Sandėlio grupė	Peripherie & Desktop > Monitore [+1595][−576]
