One dock. One cable. Ultimate Performance.

The Dell Thunderbolt™ Dock TB16 -180W with Intel® Thunderbolt 3 technology is the ultimate docking solution, designed for power users and traditional workstation clients, creating the ability to connect up to three FHD displays, two 4K displays, or one 5K display at 60Hz. Data transfers up to 40 Gbps allow lightning-fast transfers of larger files such as video editing files.

Small footprint and big flexibility

The Dell Thunderbolt™ Dock TB16 -180W is small in size—just 5.7 x 5.7 x 2 inches (145 x 145 x 51mm). By connecting one cable to your laptop, you

can get access to a wide variety of ports, enhancing productivity.

One source for power

The Dell Thunderbolt™ Dock TB16 -180W can provide power to your laptop (at 19.5V) and can also provide power to attached Thunderbolt™ 3 peripherals. With the ability to provide up to 60W of power to an external Thunderbolt™ 3 device, this version is best for Dell Latitude and XPS notebooks and 2-in-1s with a Thunderbolt™ 3 port that require up to 65W of power.
