Pagrindinės savybės

- ✓ Midi Tower PC Gaming
- ✓ ATX, micro ATX, Mini-ITX
- ✓ Supported HDD sizes: 2.5,3.5" HDD/SSD combo cage
- ✓ Number of 2.5" bays: 2 Number of 3.5" bays: 2
- ✓ Side window Illumination Multi Tempered glass panel(s) Anti-dust filter
- ✓ Tempered glass
- ✓ Black

Aprašymas

GAMING CASE MC-PRISMA

Discover the MC-PRISMA, Mars Gaming's first ATX gaming case with true immersive vision thanks to its three continuous panoramic tempered glass panels. A unique design that blends cutting-edge aesthetics with advanced functionality, created for those who want to stand out in both performance and style. Its versatility and power make it the perfect foundation for creators, gamers, and enthusiasts looking to build a one-of-a-kind setup.

Brightness and power from every angle

- Immersive vision with triple tempered glass
- Side and front ARGB lighting
- Support for liquid cooling up to 360 mm
- Optimized dual-chamber design

TOTAL PANORAMIC VISION

The MC-PRISMA delivers a unique experience with three continuous frameless tempered glass panels. This immersive design lets you admire the interior from multiple angles, showcasing every component with unmatched clarity and elegance. Perfect for ARGB builds, it transforms your rig into a visual spectacle that reflects each user’s personality and creativity.

DUAL CHAMBER, DOUBLE EFFICIENCY

Thanks to its dual-chamber structure, the MC-PRISMA separates the power supply and storage from the rest of the components. This layout enhances airflow, simplifies assembly, and ensures a flawless aesthetic by keeping cables hidden. The result is a case that combines high-level thermal performance with a clean, professional finish.

ARGB LIGHTING

The integrated ARGB LED strip on the front and side amplifies the visual impact with customizable, dynamic effects. Compatible with ARGB motherboards and controllers, it allows full synchronization with the rest of your setup, creating unique atmospheres tailored to every game or style. It also includes an additional cable that automatically activates Rainbow mode without software, ensuring a stunning effect right from the first power-on.

VERSATILITY & ADVANCED BUILDING

The MC-PRISMA supports ATX, MicroATX, and Mini-ITX motherboards, including compatibility with reverse connector boards. It also features an adjustable support for graphics cards in horizontal position and an advanced cable management system that guarantees a clean assembly, enhancing both final aesthetics and system cooling.

EXTREME COOLING

Designed for high-performance sessions, the MC-PRISMA supports up to seven fans and liquid cooling systems of up to 360 mm (maximum dimensions: 395×120×52 mm). It includes magnetic top dust filters and removable bottom filters, making maintenance easier and extending hardware lifespan. All this ensures optimal temperatures and stability even under extreme builds.

SPACE FOR NEXT-GEN HARDWARE

With support for graphics cards up to 430 mm and CPU coolers up to 162 mm, the MC-PRISMA is ready to house high-end hardware. Its storage capacity allows multiple configurations, supporting up to 2× 3.5" HDD + 2× 2.5" SSD or up to 4× 2.5" SSD.

ALWAYS-ACCESSIBLE CONNECTIVITY

The top front panel integrates USB 3.0 and 2.0 ports along with audio and microphone connections, ensuring fast and convenient access to peripherals and external devices. Everything you need, always within reach.

Techninė specifikacija

Specifications	
Sandėlio grupė	Computer cases [+160][-172]
Design	
Form factor	Midi Tower
Type	PC
Product colour	Black
Supported motherboard form factors	ATX, micro ATX, Mini-ITX
Number of 3.5" bays	2
Number of 5.25" bays	0
Material	Tempered glass

Number of 2.5" bays	2
Number of internal 3.5" bays	2
Number of expansion slots	7
Side window	Yes
