Pagrindinės savybės

- ✓ Išmanusis termostatas
- ✓ RF
- ✓ „Wi-Fi“ Programuojamas(-a) Atidėtas pradžios laikmatis
- ✓ Ekranas: Skaitmeninis
- ✓ Maitinimo šaltinis: Baterija
- ✓ Temperatūros jutiklis
- ✓ Permatomas, Balta

Aprašymas

Heating schedule: easy energy savings

Heat your home to just the right temperature and only when you need it. The Netatmo Smart Thermostat needs the answers to just five questions to create a heating schedule that suits your lifestyle. It's that easy! It turns the heating down while you're at work and makes sure it's warm when you get home. The schedule includes Absent and Frost Protection options to adjust the heating if you're away for longer periods.

A Smart Thermostat that adapts and keeps you updated in real time

Even when the weather changes, your Thermostat stays smart. The Auto-Adapt feature adjusts your heating based on the outdoor temperature and your home's insulation. The aim is to guarantee the right temperature at the right time. Set it to 20°C and that's exactly the temperature it will be when you get home! Plus, the Auto-Care feature lets you know when the batteries are running low or it detects a problem.

Control your smart heating from a distance

Stay in control of your Netatmo Smart Thermostat, wherever you are, using the Energy app on your smartphone, tablet or computer. Heading home? For a warm welcome, you can turn on the heating as you leave the office. You can also control the Thermostat manually when you're home.

Effortless voice-controlled heating

Is it bath time for the kids? "Siri, turn up the bathroom heating to 22°C!" Are your guests too hot? "OK Google, turn the heating down in the living room to 18°C." Feeling chilly? "Alexa, make the bedroom 2 degrees warmer!" Your Netatmo Smart Thermostat is compatible with Apple HomeKit, Alexa and Google Assistant, so you can control it with your voice. It's no sooner said than done!

Consumption information and advice

The Netatmo Smart Thermostat gives you everything you need to understand your heating habits and keep an eye on your energy usage. You can view your data history - indoor temperatures, heating schedule, boiler activity phases - on your smartphone or computer. And you'll receive a personalized Energy Savings Report every month. The Thermostat lets you adapt your heating schedule to your lifestyle!

Quick and easy to install

All Netatmo equipment is designed to be easy to install and use. The Smart Thermostat is no exception! It takes less than an hour to install. You don't need to be a technical expert: our step-by-step guides and videos walk you through the process.

The thermostat that adapts to your home

The Netatmo Smart Thermostat is compatible with most boilers, whichever energy you use: electricity, gas, fuel oil, wood or heat pump. Not sure whether yours is a match? Visit check.netatmo.com. You can install your mobile Thermostat anywhere in your home.

Designed by Philippe Starck to go with your decor

Your Smart Thermostat is designed to make your life easier - not harder! With a minimalist design by Philippe Starck and a choice of four adhesive strips in different colors, your Thermostat blends into your home decor.

Ideal temperature in each room

Don't want to overheat an empty bedroom but prefer to take your morning shower in a warm bathroom? We feel the same way! Only heat where you need it, when you need it, at the temperature that's right for you. How? By using your Thermostat with Additional Smart Radiator Valves. Fit them on up to 20 radiators to set the temperature room by room.

Techninė specifikacija

Savybės	
Išmanusis termostatas	Taip
Atminties funkcija	Ne
Sąsaja	RF
Išmaniojo telefono nuotolinio valdymo palaikymas	Taip

„Wi-Fi“	Taip
Wi-Fi standartai	802.11b, 802.11g, Wi-Fi 4 (802.11n)
„Wi-Fi“ dažnis	2,4 GHz
Produkto spalva	Permatomas, Balta
Didžiausias perdavimo atstumas, kai naudojama viduje	100 m
Temperatūros užduotosios reikšmės diapazonas	5 - 30 °C
Temperatūros pokyčio žingsnis	0,5 °C
Matavimo vienetas	°C
Rankinis temperatūros reguliavimas	Taip
„Multi-Zone“ ypatybė	Taip
Planavimo funkcija	Taip
Apsaugos algoritmų palaikymas	WEP, WPA, WPA2-AES, WPA2-TKIP
Programuojamas(-a)	Taip
Atidėtas pradžios laikmatis	Taip
„Multi-Home“ palaikymas	Taip
Valdoma nuotoliniu valdymu	Taip
Tinka su „Apple HomeKit“	Taip
Veikia su „Amazon Alexa“	Taip
Veikia su „Google Assistant“	Taip

Ekranas

Ekranas	Skaitmeninis
---------	--------------

Energijos valdymas

Maitinimo šaltinis	Baterija
Baterijos tipas	AAA
Palaikomų baterijų skaičius	3
Baterijos amžiškumas	2 metai
Maksimali perjungimo įtampa	250 V
Didžiausia perjungimo srovė	4 A

Jutikliai

Temperatūros jutiklis	Taip
-----------------------	------

Sistemos reikalavimai

Palaikomos mobiliosios operacinės sistemos	Android 4.2, Android 4.2.1, Android 4.2.2, Android 4.3, „Android 4.4“, Android 5.0, Android 5.1, Android 6.0, Android 7.0, Android 7.1, Android 7.1.2, Android 8.0, Android 9.0, Windows Phone 8, Windows Phone 8.1, Windows Phone 9, iOS 10.0, iOS 11.0, iOS 11.4, iOS 12, iOS 9.0, iOS 9.1, iOS 9.2, iOS 9.3, iPadOS
--	--

Svoris ir matmenys

Plotis	83 mm
Ilgis	22 mm
Aukštis	83 mm
Svoris	185 g

Pakuotės turinys

Pridedamas nuotolinio valdymo pultelis	Ne
Imtuvas	Taip
Kintamosios srovės adapteris	Taip
Pridėti sraigtai	Taip
Pridėtos baterijos	Taip
Pridėti kabeliai	USB
Pridedamas katilo adapteris	Taip
Sienelės bracket	Taip
Pridėtas stovas	Taip
Montavimo instrukcija	Taip
Greitos pradžios vadovas	Taip
Kiekis	1

Matmenys ir svoris

Matmenys (I × P × A)	16,00cm × 9,00cm × 20,00cm
Svoris	0,80kg
