Engineered for the latest PC builds, the Core i5-12600 operates at a robust base clock frequency of 3.30 GHz, providing swift responsiveness for daily tasks and ensuring smooth operation in complex applications. The Alder Lake-S design introduces significant architectural enhancements over previous generations, improving performance efficiency across the board.

Key Features for Modern Computing:

- **Model Specification:** Intel Core i5-12600, offering excellent price-to-performance ratio for mid-to-high-tier systems.
- **High Clock Speed:** A base frequency of 3.30 GHz ensures rapid task execution.
- **LGA 1700 Socket Compatibility:** Designed specifically for motherboards featuring the LGA 1700 socket, enabling access to the latest platform features and technologies.
- **Alder Lake-S Architecture:** Benefits from the advancements of Intel's 12th Generation core design, optimized for modern operating systems and applications.
- **Boxed Version:** Supplied in retail packaging (boxed), ensuring full manufacturer warranty and often including a stock cooling solution.

Seamless Integration

Choosing the Intel Core i5-12600 means selecting a future-ready component. Its compatibility with the LGA 1700 socket makes it the perfect centerpiece for new desktop builds focused on stability, gaming, and productivity. Experience the difference that 12th Gen Intel technology brings to your computing experience.

INTEL is a global technology leader renowned for innovation in processor and semiconductor technology, driving the future of computing worldwide. Intel components are trusted by system builders and professionals for their performance and reliability.
