Equipped with 8 GB of high-speed GDDR6 memory, the RTX 3050 ensures smooth frame rates and fast texture loading in modern titles. The INNO3D Twin X2 cooling design features dual powerful fans, engineered to maintain optimal thermal levels even during extended gaming sessions, ensuring quiet and stable operation for maximum longevity.

Key Features for Gamers:

- Powered by NVIDIA GeForce RTX 3050 for reliable performance in mainstream gaming.
- 8 GB GDDR6 VRAM, providing ample memory capacity for modern textures and resolutions.
- Twin X2 thermal solution featuring two large fans for superior heat dissipation.
- Supports NVIDIA DLSS, drastically accelerating frame rates while maintaining image quality in supported games.
- Includes support for real-time Ray Tracing, enhancing visual fidelity with realistic lighting, shadows, and reflections.

INNO3D is a globally recognized manufacturer known for producing high-quality graphics cards and PC components, focusing on performance, reliability, and innovative cooling solutions.

Order today from ++SHOP++ as we offer the best deals and fast delivery on all INNO3D components.
