## ASUS GeForce RTX 3050 Low Profile O6G Graphics Card

The ASUS GeForce RTX™ 3050 Low Profile O6G is a compact graphics card designed to boost productivity across multiple monitors. This card features a low-profile design, making it suitable for smaller form-factor systems while delivering robust performance.

### Features:

- **IP5X Dust Resistance:** Protects against dust accumulation, ensuring long-term fan performance and system reliability.

- **Auto-Extreme Technology:** An automated manufacturing process enhances component reliability by reducing thermal strain and avoiding harsh chemicals.
- **GPU Tweak III:** Allows you to monitor and adjust GPU core clocks, memory frequency, and voltage settings in real-time.
- **144-hour Validation Program:** Undergoes rigorous testing to ensure compatibility with the latest games and applications.
- **6GB GDDR6 Memory:** Provides ample memory for gaming and content creation tasks.

**ASUS** is a leading global technology company known for innovation and quality in PC components and complete systems. Their products are designed to deliver exceptional performance and reliability for gamers, creators, and professionals alike.

### **Big Productivity in a Small Package**

ASUS GeForce RTX™ 3050 LP BRK is a low-profile, compact graphics card that enables multi-monitor productivity.

IP5X Dust Resistance

#### **Keep it clean**

Dust is enemy number one for fans. It's easy to clean the blades, but taking the fan apart to remove dust that has made its way inside is not a simple task. Passing the IP5X certification means the housing is safe from nasty particulates, so you'll never need that deep clean.

Auto-Extreme Technology

#### **Precision automated manufacturing**

Auto-Extreme Technology is an automated manufacturing process that sets new standards in the industry by allowing all soldering to be completed in a single pass. This reduces thermal strain on components and avoids the use of harsh cleaning chemicals, resulting in less environmental impact, lower manufacturing power consumption, and a more reliable product overall.

GPU Tweak III

#### **Monitor, tweak, and tune**

---

The ASUS GPU Tweak III utility takes graphics card tuning to the next level. It allows you to tweak critical parameters including GPU core clocks, memory frequency, and voltage settings, with the option to monitor everything in real-time through a customizable on-screen display. Advanced fan control is also included along with many more features to help you get the most out of your graphics card.

144-hour Validation Program

**“Extensive” may be an understatement**

A 144-hour validation program puts cards through a series of stringent tests to ensure compatibility with the latest games.

**Pair with a PSU**

Use our wattage calculator to estimate how much power you’ll need to fuel your rig and then pick a compatible ROG, TUF Gaming or Prime PSU for ultimate performance.
