visuals and supports resolutions up to 7680 x 4320. Its design prioritizes compatibility, making it an ideal choice for smaller chassis and Home Theater Personal Computers (HTPCs) where space and flexibility are crucial.

## Space-Efficient Single-Slot, Low-Profile Design

Maximize your expansion potential with the space-saving single-slot design of the ASUS GT 1030. The slimline cooling fan ensures that neighboring PCI Express slots remain unobstructed, allowing for additional expansion cards. This compact size guarantees broad compatibility with a wide variety of smaller form factor chassis, enabling you to build the perfect system tailored to your specific needs.

## Unsurpassed Reliability with Auto-Extreme Technology

ASUS guarantees superior stability and longevity through the use of industry-first 100% automated production process—Auto-Extreme Technology. This process uses premium Super Alloy Power II components which significantly enhance efficiency, reduce power loss, minimize component buzzing under load, and maintain lower thermal temperatures, ensuring unsurpassed quality and long-term reliability for your system.

## Intuitive Performance Tuning via GPU Tweak II

Customize and optimize your graphics performance easily using the redesigned GPU Tweak II software. This intuitive utility makes overclocking simple for novices while retaining advanced controls for expert users. The dedicated Gaming Booster function maximizes system performance with a single click by managing resources efficiently:

- Visual effects: Boost performance by quickly turning off demanding Windows visual effects.
- System Services: Automatically or manually disable unnecessary Windows processes and services.
- Memory Defragmentation: Re-arrange and free up system memory without interrupting ongoing processes.

**ASUS** is a globally renowned technology leader, consistently delivering cutting-edge hardware known for innovation, quality, and performance.

Order today from ++SHOP++ as we offer the best deals and fast shipping on specialized components like the ASUS GT 1030.

## **Graphics galore for everyone!**

ASUS GeForce GT1030's single-slot design doesn't block neighboring PCIe slots, maximizing expansion flexibility, and the small size offers great compatibility with smaller chassis. Exclusive Auto-Extreme Technology with Super Alloy Power II components for superior stability. It also has GPU Tweak II for intuitive performance tweaking.

## **Space-efficient single-slot design**

The slimline cooling fan and single-slot design means that GT1030 doesn't block neighboring PCI Express slots, maximizing your ability to fit additional expansion cards. The small size also offers great compatibility with a wide variety of smaller chassis, so you can build in whatever form is best for your needs.

## **Auto-Extreme Technology with Super Alloy Power II**

Premium quality and the best reliability

ASUS graphics cards are produced using Auto-Extreme technology, an industry-first 100% automated production process, and feature premium Super Alloy Power II components that enhance efficiency, reduce power loss, decrease component buzzing under load, and lower thermal temperatures for unsurpassed quality and reliability.

## **GPU Tweak II**

Tweak Till Your Heart's Content

Redesigned with an intuitive, all-new UI, GPU Tweak II makes overclocking easier and more visual than ever, while still retaining advanced options for seasoned overclockers. With one click, the new Gaming Booster function maximizes system performance by removing redundant processes and allocating all available resources automatically.

## **Gaming Booster**

One-click Performance Up

- Visual effects: Boost your performance by turning off windows visual effects.
- System Services: Automatically or manually turn off windows services or process.
- Memory Defragmentation: Re-arrange & free your system memory without closing any processes.
