Dual-Band Wi-Fi 6 Up to 1.8 Gbps

Every application feels more fluid with drastically improved WiFi speeds. Both 2.4 GHz band and 5 GHz band get upgraded to the latest generation—perfect for 4K streaming, online gaming, and fast downloading.

Extensive WiFi Coverage with Advanced Technologies

Beamforming technology, independent Front-End Module, and four high-gain antennas combine to adapt WiFi coverage to perfectly fit your home and concentrate signal strength towards your devices.

Connect More, Stay Fast

Easily handle dozens of devices streaming and gaming at the same time—OFDMA future-proofs your home networks by providing greater capacity to connect more devices.

OFDMA

OFDMA separates a single spectrum into multiple units and enables different devices to share one transmission stream, increasing efficiency and reducing latency.

WPA3—New Level of Cyber Security

The latest WiFi security protocol, WPA3, brings new capabilities to improve cybersecurity in personal networks. More secure encryption in WiFi password safety and enhanced protection against brute-force attacks combine to safeguard your home WiFi.
