Aprašymas

Manufactured using ECO-FRIENDLY RPET polyester made from multiple used plastic bottles that may have ended up as landfill or in the oceans. The equivalent of 8 × 500ml plastic bottles is used in the production of each bag.

Light reflective zipper

We at RIVACASE believe in creating products that help take care of you as you take care of them. We also take pride in creating products for which every detail has been considered in order to make your experience as smooth and effort-free as possible. That is why we have introduced a light reflective zipper on this Alpendorf bag so that you can both be seen a bit more easily at night when crossing the road, for instance, but also so that you can quickly and easily locate the zip and get to your things when the light is more dim.

Compact but capacious

The slim design of this bag makes it the perfect kind of thing to orientate yourself around urban environments. There is no doubt that we all often have to face busy and congested spaces when getting about on our daily commute. Make your life easier by not lumbering yourself with cumbersome bags, and instead by travelling light. However, space has not been sacrificed with this Alpendorf bag, and a capacious main compartment is offered that will contain all your necessary items for that important working day ahead.

Two front zippered pockets

Sometimes in life you need two instead of one. Never is this more the case than with your daily bag. You want as much versatility as possible. At RIVACASE we very much take this as one of our central values, and regard our products as the swiss-army-knives of bags - ready for any eventuality.

One small aspect of this philosophy are the two front zippered pockets - providing you with that extra space for better organization of your items like phones, chargers and cables. So don't settle for less - choose a more functional bag instead.

internal zippered pocket

The internal zippered pocket on this bag is the perfect solution for those wanting to keep their things organized and safe. There are some items that we simply cannot take any chances with like crucial notepads, diaries, passports etc. That is why this compartment is so useful, as it offers you a place where you can store these items securely and where you can be assured that they will always remain neat and tidy and ready to grab, instead of lost at the bottom of your bag.

Padded laptop pocket

Your laptop is probably one of your most prized possessions. There are few other things which contain such importance in our daily lives in terms of being a portal to all of our work and social lives. As such, it needs to be kept in the most secure of conditions at all times. That is why we have made sure with this Alpendorf bag to include an extra padded pocket specially designed for your laptop so that you can place it in a snug and safe environment and be assured that from the beginning of your journey until the end, you have nothing to worry about.

Removable adjustable shoulder strap

Sometimes we need that extra bit of versatility in our lives. Never is this more the case than with the bags we use to commute and to travel with. Often when travelling we need that extra hand free to carry a phone or perhaps even another bag or a book we are reading. In order to help you do this, we have provided a removable and adjustable shoulder strap, so you can sling the bag over your shoulder and carry on with your day. Being adjustable, you can make sure that it is perfectly suited to your needs and remains fully comfortable when moving about the place.

- Active-style urban bag is made of high-quality water-resistant material
- Padded sides provide extra protection from accidental damage
- The main compartment features:
 - additionally protected neoprene hanging laptop compartment
 - inner zipped section for documents
- Front zipped pocket with a reflective zipper for a smartphone, business cards and accessories
- Dual zipper pulls for quick and easy access
- Comfortable padded handles and a removable, adjustable strap
