79.99€

Manufactured using ECO-FRIENDLY RPET polyester made from multiple used plastic bottles that may have ended up as landfill or in the oceans. The equivalent of 7 x 500ml plastic bottles is used in the production of each bag.

eco-friendly water-repellent fabric

The eco-friendly water-repellent fabric of this bag is exactly the kind of thing you will thank us for as you go about your daily business. There is nothing worse than picking up a new bag from the store only to realize that it is completely useless even when faced with the most mild of showers. With the kinds of electronics we all use, this is a completely unacceptable situation. That is why we have crafted this bag with water-repellent fabric that is, in addition, environmentally friendly. This ensures that your conscience can remain clear, along with the safety of your belongings.

Front zipped pocket

The stylish diagonal front pocket of this Clark bag is the perfect solution for so many of your accessories. There are many moments when we simply do not have the time or bandwidth to be opening and closing the main compartment of your bag every time you need to retrieve or put away an item. You do not want to be doing that every time you leave a meeting or step off a train or plane. You need to be able to simply slide away whatever it is and be on your way. That is where this front zippered pocket comes in handy so that you can slip away your pen or booklet and be onto the next task at a moment's notice.

Well-thought-out internal organization

The organizer panel for accessories features a detachable key strap so that you are not left cursing the heavens while stuck outside your house on a rainy day, scrabbling around at the bottom of your bag or through your pockets looking for your troublesome house keys. Also, an additional mesh zipped pocket is provided for those items that are deserving of such a place. A laptop pocket with a pocket for a tablet up to 11" will give you the perfect solution for when you need to take that extra device along with you. And ample space for documents and books is also available, to make the bag the perfect option for those who prefer the more old school approach.

Additionally protected neopren hanging laptop compartment

We all know the issue of a bag that doesn't properly cater to the laptop. The device is then left rattling around in the bottom of the bag subject to all the standard movements and jolts of the average journey, and so, as a result, is in constant danger of damage. Fortunately, this bag avoids such issues with its specially designed neoprene hanging laptop compartment with padded sides that features an extra added pocket for a Tablet up to 11". The bag is additionally protected with a waterproof zipper to make sure all your belongings remain safe and dry.

Removable adjustable SHOULDER STRAP

The sturdy metal clips of this bag make it a bag to rely on. We all know the trouble of cheaply made bags. Invariably, these end up snapping and breaking at the time when you least expect or need it to happen. Instead, we have provided durable clips so that you can be robust with your bag when in a little bit of a rush, and at the same time know that it isn't going to let you down. The removable and adjustable shoulder strap means that you can make sure your bag works well for you. Or, indeed, should you be against using one, you can simply remove it and carry on your day without one.

Trolley strap

The trolley strap of this bag is the perfect solution to the perennial problem of what to do with multiple bags when on longer journeys. When travelling through airports or train stations, you definitely want the option of being able to slide your bag over the handle of your roller bag so that you have that extra hand free for a magazine, phone, or child's hand. That is what this bag helps to achieve with the nifty trolley strap located on its back. This is just one way in which the Clark range makes for ergonomic and more functional travel.

- Spacious compartment for documents with a zippered mesh pocket for accessories
- Front zippered pocket for a smartphone, business cards, pens and other accessories
