### Aqara Wireless Remote Switch H1 (Double Rocker) (WRS-R02 G)

The Aqara Wireless Remote Switch H1 (Double Rocker) is a wireless remote switch. It supports single press in the high-speed click mode, and 7 functions in the multi-function mode including single press left button, single press right button, double press left button, double press right button, long press left button and long-press right button. It is able to be placed or attached anywhere indoors. It also works with the Aqara hub and other Aqara smart devices to implement a variety of smart scenes.

Features:

- Zigbee 3.0 Protocol\*: Enjoy the benefits of the fastest, most stable, and energy-efficient smart home technology. Better stability and compatibility (more standardized protocol), longer support and more features.

- Automation Support (via Aqara Home and Apple HomeKit): The switch can run automation, switch between smart scenes and change its functions depending on the time of the day or other conditions. Both Aqara Home (iOS/Android) and Apple HomeKit are supported.
- Five-Year Battery Life: The longest battery life among other Aqara products.
- High-Speed Click Mode: In this mode double and long press functions are not supported, but the latency decreases down to 50 ms.
- 7 Configurable Actions: Single click, double click, long press, press 2 buttons simultaneously.
- Flexible Installation: 3 installation methods including putting on the horizontal surface, sticking onto a flat surface using an included sticky pad and screwing in place of the existing wall box.
- High-Quality Build: Uses the same design as Aqara's flagship Wall Switch H1.
- 2-Way Switch Setup Support with Wall Switch H1: By combining the Wireless Switch H1 with the Smart Wall Switch H1, you can easily control the same lights from two or more locations without having to add additional wiring.
