EEM2-UG2 USB-C 10Gbps - M.2 NVMe SSD SILVER ARROW box

External USB-C 10Gbps metal box for M.2 NVMe & SATA SSD disks. Silver.

Fast external AXAGON EEM2-UG2 ARROW box with USB 10Gbps interface is designed for M.2 NVMe SSDs. The double-sided USB-C connector on the box enables a reliable connection. In the package you will find a USB-C -> USB-C cable to connect the box to your computer.

The transmission rate is up to 10Gb/s thanks to the fast USB 3.2 Gen 2 interface. The external M.2 box also supports other modern features e.g. UASP, TRIM and enables reading S.M.A.R.T. disk status monitoring information. Standby support when idle.

The advantage is the attachment of three different lengths of SSD cards - 42, 60 and 80 mm. M.2 drives can be single-sided or double-sided. The box does not limit the capacity of inserted SSD.

Opening the box with just one screw makes it easy to mount and dismount the M.2 SSD. Disk replacement is quick and easy, thus expanding the possibilities of using the box, e.g. for data migration, testing, etc.

The outer metal casing is finished in silver with a sleek finish that prevents unwanted fingerprints.

Aluminum box body and thermal conductive pad provides very good M.2 SSD disk cooling. This extends its service life and also prevents the disk from slowing down, so-called „Thermal Throttling“.

By inserting the M.2 SSD in the box, you will easily create fast compact and universal external disk. The box can be used with computers and notebooks, as well as with mobile phones and tablets.
