Pagrindinės savybės

- ✓ Drip & Leak Alert - Responds to drips and leaks with 6 detection probes on both top and bottom
- ✓ Up to 90dB Alarm - Get alerted with its 90 dB siren and mute the alarm with one-touch
- ✓ IP67 Waterproof Rating - IP67 waterproofing protects from wet and dusty environments
- ✓ Instant App Notification - Receive instant alerts via the Tapo app when a leak occurs from anywhere
- ✓ Flexible Placement - Wireless, designed to place in anywhere leaks or flooding may occur, like under the sinks, near washing machine, bathtub and more
- ✓ Visible Alarm with Tapo Lights - Get an visual alert from your smart bulb before disaster strikes
- ✓ Hub Required - Triggers the Hub alarm when leakage is detected. Manage up to 64 sensors with one hub

Aprašymas

Smart Water Leak Sensor

24/7 Drip & Leak Alert

Around-the-Clock Alerts

Featuring 6 high-sensitive probes on the top and bottom, the Tapo Smart Water Leak Sensor detects both water leakage and flooding and alerts you immediately with its 90 dB alarm. It can also trigger the Hub alarm for additional audible alert coverage. Now you can intervene immediately and prevent worse water damage.

Monitor Water Leakage from Anywhere

Receive an instant app notification when a leak happens or the batteries run low. Find out even while away from home.

Versatile Usages, Flexible Placement

Designed small and stylish to fit in most places. Hang the sensor with its lanyard, mount to the wall with adhesives, or attach to metallic surfaces with magnets (all included).

Make a Visible Alarm

Create a Smart Action in the Tapo app to connect your smart lighting with the Tapo Smart Water Leak Sensor. Get a visual alert from your smart bulb before disaster strikes.

IP67 Waterproof

Designed with an IP67 waterproof and dustproof rating, the sensor is ideal for humid and dusty environments with a long service life.

Long - Lasting Performance

With two replaceable AAA batteries, the sensor can last up to 1.5 years while coordinating with 24/7 Tapo Hub alarms. Consumes less energy and lasts more than 2 years when working independently.

Techninė specifikacija

Savybės

Kiekis pakuotėje 1 vnt

Svoris ir matmenys

Plotis 46,5 mm

Ilgis 84,5 mm

Aukštis 30 mm

Pakuotės plotis	53 mm
Pakuotės gylis	87,5 mm
Pakuotės aukštis	37 mm
Paketo svoris	120 g

Aplinkos sąlygos

Darbo temperatūros diapazonas (TT)	0 - 40 °C
Darbo santykinės drėgmės diapazonas	0 - 99%

Energijos valdymas

Maitinimo šaltinis	Baterija
Baterijos tipas	AAA

Matmenys ir svoris

Matmenys (I × P × A)	4,00cm × 9,00cm × 6,00cm
