Aprašymas

AXAGON CLR-M2 ALU passive cooler for ideal cooling of high performance M.2 SSDs.

The versatile passive cooler can be used for M.2 cards, size 22 x 80 mm.

Three delivered thermally conductive pads with a different thickness will allow to install the cooler for all one-sided as well as double-sided M.2 SSDs.

The 8mm aluminium finned cooler assists in a better discharge of heat generated during the M.2 SSD operation, thus allowing to reduce the drive temperature by as much as 25°C.

Thanks to its easy installation and compact dimensions, the cooler can be used not only with M.2 AXAGON adapters, but also with M.2 (NGFF) slots on motherboards, etc.
