The reverse fans offer powerful cooling in an unusual design and ensure that the air flows quietly in the opposite direction.

The modern design and filigree lines not only ensure a striking look, but also optimize air circulation. Available in black and white, the 120 mm fans are the perfect match for any gaming setup.

With PWM control, the case fans can be easily regulated individually and remain quiet even during intensive use.

The addressable ARGB lighting enables individual lighting effects and seamless synchronization with common controllers.
