Unmatched Performance and Cooling

The Palit Infinity 3 cooling system is designed to keep this powerful GPU running optimally under intense load. This advanced cooling solution utilizes multiple fans and a finely engineered heatsink array to efficiently dissipate heat, ensuring stability and longevity, even during extended gaming sessions.

- **GeForce RTX 5070 Architecture:** Powering next-level graphics with enhanced efficiency and performance.
- **12GB GDDR7 VRAM:** Provides enormous memory bandwidth for high-resolution textures and complex workloads.
- **Factory Overclocked (OC):** Enhanced clock speeds delivering superior performance compared to standard models.
- **Infinity 3 Cooling:** Triple-fan design ensures optimal thermal management and quiet operation.
- **Ray Tracing and AI Capabilities:** Ready for hyper-realistic lighting, shadows, and utilizing advanced features for improved image quality.

The RTX 5070 is the perfect choice for building a high-end PC capable of handling future gaming innovations and content creation workflows.

PALIT is globally recognized as a leading manufacturer of high-quality, innovative graphics cards, known for delivering powerful and reliable solutions for PC enthusiasts worldwide.
