Aprašymas

ONKRON present an absolutely new product among other mounting solutions – tilting adapter panel for mobile TV stands - ATL1881. Nowadays there are very few TV carts with tilting function, but this feature is very important, isn't it? Now thanks to our adapter you can tilt you TV right on the mobile TV stand!

The adapter is installed between VESA panel of TV cart and its columns, using only bolts from the kit of the mobile TV stand. When you want to change tilting angle of your TV you just need to use plastic handles and set desirable angle within range 0° ~ +10°. Now you can have the best possible viewing angle on your mobile TV stand.

ATL1881 perfectly fits mobile TV stand TS1881 by ONKRON and other similar models with distance between holes in the columns 10.5" (266mm) and between holes for VESA panel mounting 10.3" (260mm). Important: Check all distances to make sure your mobile TV stand is suitable. Work with similar products from other manufacturers is not guaranteed.

- Tilting adapter provides your mobile TV stand with a tilting function with angle 0° ~ +10°
- Fits TV stands with distance between holes in the columns 10.5" (266mm) and between holes for VESA panel mounting 10.3" (260mm)
- Tilting adapter panel is installed between your mobile TV stand's columns and VESA panel
- Quick and easy tilting thank to plastic handles, so you can tilt your screen anytime you need
- No tools needed, it is installed using bolts from the kit of your TV cart
